EXCISE DEPARTMENT.

SALE OF SEPARATE ARRACK SHOPS FOR 1905-06.

Notification No. 6211—4, dated 13th March 1905.

1. Notice is hereby given that the exclusive right of selling arrack in each of the separate shops specified in the appended schedule* for the twelve months beginning with 1st July 1905 and ending with 30th June 1906, will be put up to public auction at upset prices, by the respective Deputy Commissioners or by Revenue Assistant Commissioners or by Divisional Officers of the Excise Department or other Officers specially authorized by the Deputy Commissioners for the purpose, on the dates and at the places mentioned in the said schedule, subject to the conditions hereinafter set forth. If the sales are not completed on abovenamed days, they will be continued on the next following days (close holidays excepted).

2. *(a)* Each bidder at the auction will deposit a sum of Rs. 60 for shops in the Kolar Gold Fields, Rs. 25 for those in the Mysore and Bangalore Cities and Rs. 10 for those in other places, or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. It will, if offered, be received at any time within three days prior to the date of sale, provided that the Government may, at any time, dispense with such initial deposit. The deposits made by unsuccessful bidders if not forfeited as hereinafter provided, will be returned at the close of the sale. The shops or group of shops will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject any bid at his discretion without assigning reasons for the same. Such formal confirmation will, *unless revised by Government for special reasons,* be tantamount to an acceptance of the bid and will be necessary whether the sale be held by the Deputy Commissioner himself or by any other officer appointed by him. Parties intending to bid must attend either in person or by duly accredited agents. Should there be no bid above the upset price, for any shop singly, the officer conducting the sale may, in consultation with the Excise Divisional Officer, if present, club together more than one shop or, if necessary, reserve shops for which there may be no bids, for disposal hereafter. He may, subject to formal confirmation of the Deputy Commissioner, sell the right in any particular case by means of tenders or by private negotiation. He may also lower the upset price at his discretion. The officer conducting the sale may at his discretion, and without assigning any reason, refuse to accept the bid of any person, on the ground that he has been convicted by a criminal court of such an offence, or has been guilty of such breach of the conditions of the license, or of a contract under the Excise Regulation or Opium Act, as to render him undesirable as a holder of a license, or on the ground that he is insolvent, or in order to prevent arrangements to the detriment of Government interests, or for any other valid reason.

(b) No shop shall be knocked down in the name of more than one person or of more than one company or firm duly represented. The selling officer shall refuse to register as a purchaser any one in whose name the bidding has not proceeded.

* For Schedule see Supplement to the *Mysore Gazette*, dated 23rd March 1905.

3. (*a*) The successful bidder shall, on the exclusive privilege being knocked down to him, at once, if so required by the selling officer, or otherwise at the close of the day's sale, further deposit a sum equal to one-twenty-fourth part of his bid for the year, that is to say, one-half of the monthly rent unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit, if any, made by him under clause 2 (*a*) will be forfeited, and the privilege will be sold again on the above conditions, or otherwise disposed of at his risk, as the Deputy Commissioner or selling officer may determine.

(*b*) The person to whom a shop or group of shops has been knocked down and who has made deposits as provided above, shall be required to leave his address with the selling officer, in order that the confirmation of the sale may be communicated to that address by a notice, and he shall, within seven days after the service of the said notice by its presentation to himself or to any adult male member of his family at the place of said address or by its being affixed thereto or by its forwardal duly registered by post, pay at the Taluk Treasury concerned, such further sum as, with the former deposits, will make up an aggregate sum equal to two months' rent, and execute at the same time before the Amildar the necessary engagements and take out the necessary licenses, as hereinafter set forth.

4. (*a*) The deposit made under the preceding para shall be either in cash or in Government of India Securities duly endorsed in favor of the Deputy Commissioner. Provided that in cases where the monthly rent exceeds Rs. 10 (in lieu of a deposit of two months' rent as above), the Deputy Commissioner may, in his discretion, allow any purchaser to deposit one month's rent as above, and to furnish approved personal security for an amount equal to four months' rent. In all cases where the monthly rent does not exceed Rs. 10, a cash deposit equal to two months' rent shall invariably be taken, and no personal security shall be accepted. If, on enquiry subsequent to sale, the purchaser shall be found to be a foreigner having no property in the Mysore State, or to be of doubtful solvency he may be required to deposit twice the prescribed sum or to get a surety or sureties, residents of and possessing property in the Mysore State, to execute a security bond for the due payment of *all moneys* that may become due by him under the terms of the contract.

(*b*) Should the initial deposit exceed the sum required to be deposited under clause 3 (*b*) or clause 4 (*a*), the excess will be refunded to the purchaser.

5. The purchaser shall execute an agreement in the prescribed form, binding himself and, unless exempted by the Deputy Commissioner by an order duly recorded, so much of his movable and immovable property as may be deemed sufficient by the Deputy Commissioner, to observe the conditions hereinafter set forth, as well as those specified in the license to be issued to him ; and his surety or sureties, if any have been accepted, shall also execute a bond in the prescribed form binding himself or themselves and so much of his or their movable or immovable property as may be deemed sufficient by the Deputy Commissioner for the due fulfilment by the purchaser of the terms of the agreement. The agreement and the bond so executed shall be stamped at the expense of the purchaser. They shall also be registered at his expense when the amount secured is Rs. 100 and above.

6. If default is made in making the deposit or deposits or in executing the agreement or the security bond, if any, and in taking out licenses as aforesaid, the exclusive privilege shall be forthwith re-sold or otherwise disposed of by the Deputy Commissioner at the risk of the first purchaser, who shall forfeit to the Government any deposit or deposits already made by him, and shall further be liable to make good any loss caused by such re-sale or other disposal. He shall not be entitled to any gain accruing from the re-sale or other disposal, and he shall be debarred from bidding again for the same or for any other shop or group of shops. In the case of loss the forfeited deposits will be deducted from it and the remainder, if any, shall be recovered as if it were an arrear of land revenue. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. Re-sales or other disposal effected under para 6 will be at the risk of the defaulting bidder, who shall forfeit all again; and in the event of a loss caused by re-sale or other disposal he shall make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or other disposal. In the latter case, the forfeited deposit shall be deducted from the loss arising from the re-sale or other disposal, and the remainder, if any, shall be recovered from the defaulter in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit shall be credited to Government.

8. The amount of rental, the consumption of each shop, etc., for several years past are specified in the appended schedule.

9. The license to be taken out under para 3 (*b*) above, shall be subject to the following conditions but nothing herein contained shall exempt the purchaser of the privilege from liability to the penalties prescribed for breaches of the conditions set forth below though a formal license may not have been issued :—

(1) The amount for which the privilege has been purchased shall, if it exceeds Rs. 12 per annum, be payable into the local Taluk Treasury in equal monthly instalments commencing from July 1905. But where it does not exceed Rs. 12 per annum, it shall be paid in not more than three equal quarterly instalments. Each instalment shall be regarded as the rent for the month or quarter in respect of which it is payable. The licensee is not required to make any additional

payment on account of local cess. Each month's or quarter's rent shall be payable on or before the 20th of the same month, or before the end of the quarter for which the instalment is due. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, suspend, or declare by record in writing that the license is forfeited, and proceed to re-sell or otherwise dispose of the shop or group of shops as soon after the last day of the month or quarter as may be possible with effect from the date of issue of license to the new purchaser or from the date of other disposal. The officer who has power to suspend license may, however, at his discretion, allow sales to continue pending re-sale or other disposal of the privilege.

Note.—The licensee of a Jatra shop shall pay the rent thereof in full before the Jatra begins.

(2) The deposit made by the licensee shall be taken as security for the due performance of the conditions of the license and if not forfeited, credited or otherwise disposed of, shall be credited in payment of the instalments due in the last two months of the period of the lease. Provided, however, that where the shop or group of shops is re-sold or otherwise disposed of, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale or other disposal of the shop or group of shops. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(3) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default, and on deficits from the date of re-sale.

In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. As soon as the agreements and bonds have been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions; but nothing herein contained shall exempt the purchaser of the privilege from liability to the penalties prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him:—

(1) The exclusive privilege conferred by the license extends to the sale of Date, Palmyra, Cocoanut, Bagani and Dadasal toddy. But in tracts where both Date and Bagani toddy shops exist, the licensee of the Date Toddy shop shall not tap Bagani trees, and the licensee of the Bagani Toddy shop shall not tap Date trees but both licensees can tap any of the other palm trees named above.

(2) The Deputy Commissioner shall be at liberty to issue license for the sale of foreign liquors, for the manufacture and sale of country beer, and for the manufacture and sale of arrack and other country spirits.

(3) The amount of rent shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from 1st July 1905. No amount shall be paid to or received by the Excise Officers. In the malnad and semi-malnad Taluks, the Deputy Commissioner may permit patels of villages who are not themselves licensees to receive payments not exceeding Rs. 50 from any individual at a

time. But if the amount of annual rent for any shop does not exceed Rs. 12, the whole of it shall be paid in not more than three quarterly instalments. Each instalment shall be regarded as the rent for the month or quarter in respect of which it is payable. The licensee is not required to make any separate payment on account of local cess. Each month's or quarter's rent shall be payable on or before the 20th of the same month or before the end of the quarter. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, by record in writing, suspend or cancel the license, order the forfeiture of all deposits made by the defaulter, and proceed to re-sell or otherwise dispose of the shop or group of shops at the defaulter's risk (as soon after the last day of the month or quarter as may be possible), with effect from date of issue of license to the new purchaser, or from the date of other disposal. Provided, however, that instead of re-selling the same as above, the Deputy Commissioner may, in his discretion, direct the Amildar to issue licenses to sub-vendors or vendors under the defaulting licensee for rents, the aggregate of which is not less than the rent the defaulting licensee had agreed to pay. The officer who has power to suspend the license may, however, at his discretion, allow sales to continue pending re-sale or other disposal of the privilege.

NOTE.—The licensee of a Jatra shop shall pay the rent thereof in full before the Jatra begins.

(4) For the supply of toddy to his shops the licensee shall have the privilege of obtaining, subject to tree-tax rules, toddy-yielding trees in the groves assigned to his shops or groups of shops, and he shall be at liberty to manufacture toddy from the trees in private lands, under private arrangements between himself and the owners of such lands. He may purchase toddy from any licensed toddy shop-keeper on application to the Inspector, who will grant the required permits on proof of the necessity for the same. No toddy except the produce of trees marked by a proper officer and tapped under a license shall be kept in the shop or offered for sale or sold.

(5) For all toddy-yielding trees, tree-tapping licenses shall be annual. For the convenience of the licensee, the applications for tree-tapping licenses will be received, trees will be marked, and licenses will be issued during the fifteen days and pots may be attached to such marked trees during the eight days immediately preceding the period to which they relate to take effect from the commencement of such period. Provided that no toddy shall be removed from the trees except during the currency of such license.

(6) (*a*) Persons applying for the issue of tree-tapping licenses will be responsible to Government for all sums payable as tree-tax on account of the trees licensed therein to be tapped and also for tree-rent in the case of trees on Government unoccupied lands and also for local cess thereon.

(*b*) On receipt of an application, the Inspector will at once take steps for the marking of the tree by an officer superior in rank to a Sub-Inspector, and for the timely issue of the license. Applicants for date trees shall get the requisite spaces on their stems prepared and point out to the marking officer, when required by the latter to do so, the trees applied for by them. Should they fail to do so, after reasonable notice, the tree-tax and tree-rent paid by them shall be liable to be forfeited at the Deputy Commissioner's discretion.

(7) No tree shall be tapped, nor shall toddy be drawn from any toddy tree, nor shall any pot be attached to any toddy tree until the tree has been marked by the proper officer. But the removal of leaves for the purpose of making incisions and the preparation of the spathes or incisions for the drawing of toddy is permitted as soon as the application in the prescribed form has been delivered to the Treasury concerned.

(8) (1) No tree shall be tapped for toddy without a license therefor to be obtained by payment of tree-tax at the following rates:—

Description of trees.	Rates of tree-tax including local cess per tree per annum.		
	Rs.	a.	p.
Date	1	1	0
Cocoanut	2	2	0
Palmyra	1	9	6
Bagani or sago	1	9	6
Dadasal (Arenga wightii)	0	8	6

NOTE.—The licenses will be free of tax to the Mysore Government in the cases specified in clause 15 (1) (*b*) below.

(2) In addition to the above tax, tree-rent at annas 4 per tree per annum with local cess at 3 pies thereon shall be paid for all Government trees applied for being tapped for the supply of toddy shops whether within or outside the Mysore territories or in the Civil and Military Station of Bangalore.

NOTE.—No trees upon Government occupied land can be tapped without the consent of the owner. The present arrangement as regards trees on alienated land will hold good subject, of course, to the levy by Government of tree-tax.

9. The tree-tax shall be payable in the following instalments, unless the Excise Commissioner shall otherwise direct :—

Period within which license is applied for	Proportion of tree-tax to be paid at the time of application for license	Proportion of tree-tax to be paid on the first of the 3rd month
Between 1st July 1905 and 30th April 1906	One-third	The remaining two-thirds
Between 1st May 1906 and 30th June 1906	The whole	...

(10) (*a*) The tree-rent together with the local cess on tree-rent and also the local cess on the tree-tax for trees applied for shall be payable in full at the time of application for tapping license.

(*b*) If any instalments are not paid within the time, the license shall be liable to be cancelled or suspended under Section 26 of the Excise Regulation.

(*c*) When the licensee makes default and his shop is re-sold, his rights to and claim on Government trees cease and determine.

(*d*) In case of default, the Amildar with the Deputy Commissioner's permission will order the suspension of the tapping license till the arrears are paid up and if, after receiving notice of such suspension, the defaulter continue to tap the trees, he will be prosecuted for illicit tapping.

(11) The deposit made by the licensee will be taken as security for the due performance of the conditions of the license and if not forfeited or credited or otherwise disposed of shall be taken in payment of the instalment due in the last months or month of the period of the license. All arrears and deficits payable by the licensee shall, with interest at 6 per cent per annum, be recoverable from him or his surety under the rules in force for the recovery of land revenue. Interest shall be calculated on all arrears from the date of default and on deficits from the date of re-sale or disposal otherwise. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee, nor will he be entitled to any compensation for any trees withdrawn or taken for the public purpose.

(12) If the Deputy Commissioner does not confirm the re-sale, he may make such other arrangements as may appear advisable for the remainder of the period of the lease, in which case he shall serve a notice on the defaulting licensee informing him of the nature of the arrangements made.

(13) If the licensee of a group of shops wishes to establish a depot for depositing toddy required for distribution to his shops, he shall obtain a license for it in the prescribed form. The passes issued with the toddy transported, shall be subject to examination and check by the officers authorized in this behalf.

(14) The tree-tax on toddy produced by trees in the Madras Presidency but consumed in the Mysore State, will be credited to the Mysore Government. The rate of tree-tax to be paid in such cases will invariably be the highest in force on either side of the frontier. Tree-tax on trees in the Madras Presidency for which tapping licenses are about to be taken out by Mysore shop-keepers, must be paid in one instalment to the Amildar of the Taluk concerned in the Mysore State, who will grant a receipt in the prescribed chellan form and certify at the foot that the applicant is a person entitled to take out tree-tapping licenses. The applicant will then make his application to British authorities in accordance with the Madras Government Tree-tapping Rules, and will obtain a transport permit from the Inspector concerned in the Mysore State for the transport of the toddy drawn from the frontier to the shop or depot for which it is intended, after having complied with all requirements of the Madras Government Rules.

(15) (1) Tree-tapping licenses in the prescribed form shall be issued on the application—

(*a*) of licensed toddy shop-keepers or of their duly authorized agents,

(*b*) of tree-owners in coffee estates, hittals and kans in the malnad free of the prescribed tree-tax for drawing toddy for *bona fide* domestic purposes as per Government Order No. 11897-906—Excise 485, dated 20th June 1898, for such number of trees as may be found necessary by the Excise Commissioner.

The licenses may be issued in the name of the applicant himself or of his nominees.

(16) Applications for the grant of tree-tapping licenses must be made in the prescribed form to the Excise Inspector of the Range concerned through the local Treasury. Forms may be obtained from him or the Assistant Inspectors under him.

(17) Applications for tree-tapping licenses, for trees in occupied or alienated lands should be countersigned by the owner of the trees intended to be marked, in token of his consent.

Applications for tree-tapping licenses for trees in State Forests and plantations should be countersigned by the Forest Range Officer in token of his consent.

(18) Deputy Commissioners may, subject to the orders of the Excise Commissioner from time to time, prescribe the minimum number of trees for which license will be granted, and the minimum number to be entered in a single application. They may also direct that the trees situated in one village only shall be included in an application.

Provided, however, that in Bagani tracts, the licensee who has purchased the right of vend of Bagani toddy, may permit the tapping of Bagani trees for domestic consumption as well as for sale, within the limits of the village purchased by him.

Such licenses shall ordinarily be granted to shop-keepers, who usually supply the locality. Their period shall not exceed 15 days and the fee to

(27) A signboard shall be affixed in a conspicuous part of the front of each shop containing, in the local vernacular, the name of the shop-keeper, number of his license and the rate at which toddy is sold by him. (37) The licensee shall have such measures tested and stamped at his own expense.

(38) No toddy shall be sold or given to any European Non-Commissioned Officer, private or soldier, or to any European or Eurasian camp follower, or to any member of the families of any of the aforesaid persons, without the permission, in writing, of the Commanding Officer, or of some person duly authorized by him in this behalf; nor to any European or Eurasian sailor, nor to any sepoy, member of the Police Force, Excise Officer, or a servant of a Railway Company whilst on duty; nor to any European vagrant under escort of the Police; nor to any child under twelve years of age, nor to any insane person for consumption on the premises; nor shall any toddy be sold *on credit.*

(39) The Deputy Commissioner or Assistant Commissioner in charge of the Taluk may direct that all shops for the sale of toddy on, or adjacent to, the line of march shall be closed whilst a regiment or detachment of European or Native soldiers is passing or encamped in the vicinity. Such soldiers may be supplied with toddy by such persons as the Government may select for the purpose, notwithstanding the licensee's exclusive privilege.

(40) The Government reserves the power to terminate the lease on public grounds, on giving the licensee 15 days' notice and awarding a reasonable compensation to the licensee. The licensee will have no claim to compensation or remission on account of any arrangements which may be made by Government in regard to country beer or other description of liquor than toddy.

(41) The license shall not be transferable by sale, gift or otherwise or be sub-rented except with the permission of the Excise Commissioner. Resignation of shops in whole or in part will be summarily rejected by the Deputy Commissioner.

(42) No person shall be appointed by the licensee for the management of any such privilege without the Deputy Commissioner's previous approval.

(43) All engagements entered into by agent, shall be deposited with the Deputy Commissioner within one month from the date of execution.

(44) If it comes to the licensee's knowledge that any person employed by him in the manufacture, carriage or sale of toddy commits any breach of the Excise Law or of the engagements entered into by him, it shall be the licensee's duty to report the matter to the Deputy Commissioner, and to comply with the directions of the Deputy Commissioner respecting the further employment of such person.

(45) The licensee of shop or group of shops shall not, during the term of the license, have any interest in the exclusive privilege of vending arrack within 5 miles from it nor permit any person having interest in the exclusive privilege of vending arrack within the said area of 5 miles to hold any share or interest in his exclusive privilege of selling toddy; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any toddy shop or farm outside the territories of Mysore, or in the Civil and Military Station of Bangalore.

When a license is cancelled, the rent for the whole period of the license shall become due at once; and all loss caused to Government by the cancelment of the license or by the re-sale or other disposal of the privilege shall be made good by the licensee, or his surety in the manner specified in condition 53. (49) An Inspection note-book with the pages numbered consecutively for inspecting officers to enter their remarks, shall be maintained and be handed over to the Excise Inspector in charge of the Range or any officer authorized by him to receive it on a receipt being given therefor.

(50) The imposition of a fine, or the forfeiture of a deposit, or the cancellation of the license under the last preceding condition, shall not be held to prevent the prosecution of the licensee or his agents or employees for any offence punishable under the law for the time being in force.

NOTE.—For continuing breaches of a license, continuing fines may be imposed.

(51) No person who has been convicted of any heinous offence under the Indian Penal Code shall be employed in the carriage or sale of liquor without the Deputy Commissioner's previous permission.

(52) If the licensee shall be convicted on prosecution before a Magistrate of any offence against the Excise Regulation or Opium Act or other law for the time being in force, which, in the Deputy Commissioner's opinion, renders him unfit to hold the license, it shall be lawful for the Deputy Commissioner to declare his license forfeited or sell or otherwise dispose of the privilege at the risk of the licensee.

(53) All sums payable by the licensee may be deducted from the amount of his deposit, or recovered by attachment and sale of the property of the licensee or his surety, under any law for the time being in force for the recovery of arrears of land revenue.

(54) The licensee shall be bound by the provisions of the Excise Laws and Rules thereunder for the time being in force and by the terms and conditions of the license. SALE OF DRUG SHOPS FOR 1905-06.

Notice No. 5382-3, *dated 2nd February* 1905.

1. Notice is hereby given that the exclusive privilege of selling intoxicating drugs in each of the shops specified in the schedule* hereto appended, for the twelve months beginning with 1st July 1905 and ending with 30th June 1906, will be put up to public auction by the respective Deputy Commissioners or by Assistant Commissioners specially authorized by the Deputy Commissioners for the purpose, at the respective taluk or sub-taluk head-quarters on the dates specified in the said schedule, subject to the conditions hereinafter set forth.

2. Each bidder at the auction will deposit a sum of Rs. 5, or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding, provided that the Government may at any time dispense with such initial deposit. Each shop will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, *unless revised by Government,* be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents. No shop shall be knocked down in the name of more than one person or of more than one company or firm duly represented. The selling officer shall refuse to register as purchaser any one in whose name the bidding has not proceeded.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit a sum equal to $\frac{3}{8}$ths of a month's rent for that shop. Should he fail to do so, the deposit made by him under para 2 will be forfeited, the shop will at once be put up again on the above conditions, and he will be debarred from bidding again for the same or for any other shop.

4. The persons to whom the shops have been knocked down, and who have made deposits as provided in paras 2 and 3, shall also be required to leave his address with the sale conducting officer in order that the confirmation of the sale may be communicated to that address by a notice, etc., and he shall, within seven days, after the service of the said notice by its presentation to the purchaser or any adult male member in the place of said address or by its being affixed thereto or by its forwardal duly registered by post, pay at the Taluk Treasury concerned such further sum as, with the first and second deposits, will make up an amount equal to two months' rent of each shop knocked down to them; and shall take out licenses and execute a counterpart engagement, in the prescribed forms, on the conditions hereinafter set forth. On the failure of any person to make the deposit or to take out license or to execute the counterpart engagement, as aforesaid, the shop will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

5. Re-sales effected under para 4 will be at the risk of the defaulting bidder, who will forfeit all gain; and in the event of a loss by re-sale or other disposal he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or other disposal. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale, and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

6. The license to be taken out under para 4 above, shall be subject to the following conditions, namely :—

(1) The amount for which the privilege has been purchased shall be payable into the Taluk Treasury on the prescribed challan in equal monthly instalments commencing from July 1905; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month on the challan prescribed for the purpose. If such amount be less than Rs. 12, it shall be paid up in not more than three quarterly instalments commencing from 1st July 1905. The deposit of two months' rent made by the licensee, will be taken in payment of the rents due for the last two months of the period of the license. Failing payment by the 20th of the same month or before the end of the quarter for which the instalment is due, the Deputy Commissioner shall at once proceed to recover the arrears together with interest at 6 per cent under the rules in force for the collection of land revenue. No remission or abatement of the rent shall, on any account whatever, be claimable by the licensee.

(2) The licensee shall purchase Ganja and Majum from any Bonded Depot at the rates of Re. 0-13-4 and 0-5-4, respectively, per seer of 80 tolas; and shall pay the price to the Mutsaddi in charge of the Depot.

(7) The licensee shall be bound by the rules in force, and by such further rules as may be issued from time to time by Government. He shall not, during the term of his license, without the written permission of the Excise Commissioner, have any interest direct or indirect in any intoxicating drug shop outside the Mysore State or in the Civil and Military Station.

(8) No female shall be employed in the sale of intoxicating drugs.

(9) The remaining terms and conditions shall be as set forth in the prescribed license.

7. In the case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event of the licensee neglecting to open his shop or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited, and to cancel the license and to re-sell or to otherwise dispose of the privilege at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1905, shall be made good by him. When a license is cancelled, the rent for the whole period of the license shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

8. The penalties laid down in the last preceding clause shall not exempt the licensee or his employees from prosecution for any offence committed against the Excise laws or rules in force.

Mr. Hancock,

This special meeting of the Board has been convened with a view to express our appreciation of the invaluable services rendered by you to this Board during the period of your connection with it and our sense of the loss entailed by your approaching departure to England on retirement owing to failing health.

This Board came into existence in the latter part of 1899 and your official connection with it dates from June 1902. It is no exaggeration when I say that the inception and working of the Board owe a great deal to your keen perception of the growing needs of the Field and the advice tendered by you from time to time on the several questions as they cropped up. You have been associated with the Kolar Gold Field for the past 13 years and may claim to be its Nestor. You are intimately acquainted with the several phases of its history and development. I believe I echo the sentiments of all the members of the Board when I say that if any one gentlemen can claim the predominant share in building up the Mining Industry and making the Kolar Field a success, *to you* belongs that proud honor. You have helped forward the Industry in all directions and laid the foundations for a future full of bright hopes and anticipations. Your advice and assistance have been freely resorted to and ungrudgingly given on all occasions and in every matter touching the prosperity of the industry and the welfare of the men working in it. You, Sir, may look back with pride on the record which you are leaving behind you.

The new town of Robertsonpet, the offspring of the mines, owes its existence and its rapid development to the labors of this Board, of which you have been a conspicious member. Its affairs have always received a sympathetic response from you.

To the Government officers associated with the Board, you have been a personal friend and valuable co-adjutor and they have invariably receivedf rom you a full measure of assistance and support. You have smoothed their difficulties and helped to crowntheir abors with success. To them your departure from the Field will be an irreparable loss. It is however some consolation that you will come back to us for some months every year.

In taking leave of you the Board wish to repeat their expressions of regard and esteem and they sincerely hope that you will enjoy your well earned rest and that the blessing of good health and every happiness will attend you in your retirement.

Explanatory Memo on the draft Budget Estimates of the Mysore City Municipality for the year 1905-06.

RECEIPTS.

I. *Octroi.*—The estimate under the several sub-heads are based on the average realization of the past six months of the current year and the realization of the last six months of the previous year.

II. *Taxes on Houses and Buildings.*—The estimate of Rs. 20,000 is based on the actual realization of the year 1903-04. The collection of the first half of the current year was below the average owing to the absence of many house-owners, as usual, on account of the prevalence of plague in the City. Coercive measures have been adopted for the recovery of the arrears.

III. *License Receipts,* (*a*) *Liquor Shops.*—The estimated demand of Rs. 7,600 is based on the realization of the past six months of the current year and of the last six months of the previous year.

(*b*) *Other Licenses.*—The estimate is based on the amount collected during the first six months of the current year and the collection in the second half year of the previous year.

IV. *Carriage Tax.*—The estimate is based on the average collection of the last year and actual and probable collection of the current year.

V. *Taxes on Animals.*—The estimate is based on the average realization of the last two previous years.

VI. *Tolls.*—The right to collect tolls at the several toll-gates is sold by auction and it is not now possible to say what amount will be realized under this head. For budget purposes the figure of 1904-05 is retained, leaving the fractional part of it.

VII. *Other Taxes, Mohatarfa.*—There is an increase of Rs. 1,500 under "(*a*) Shop-tax," which is based on the average realization of the previous two years.

VIII. *Rents,*—The increase in the estimate over the sanctioned amount of the current year under "(*c*) Market" and "(*e*) Lands" is based on the actual realization of the year 1903-04, and also on the probable collection of the first and last half year of the current year. The decrease under "(*a*) Houses" is due to the fact that several people and dramatic companies having had to leave the City on account of the outbreak of plague in the City.

IX. *Fines.*—This is a fluctuating item and the estimate is based on the actual realization of 1903-04.

X. *Miscellaneous,* (*a*) *Sale of Houses and Lands.*—The estimate is based on the actual realization 1903-04.

(*d*) *Pounds.*—This is a fluctuating item and the estimate is based on the average realization of the past two previous years.

(*g*) *Sale of Manure;* (*h*) *Sale of grass;* (*i*) *Sale of smuggled goods;* (*k*) *Amarayi;* (*e*) *Notice and warrant fees;* (*n*) *Other items;* (*o*) *Refund and Recoveries;* (*p*) *Lapsed Deposits.*—These items being of a fluctuating nature, last year's figures are retained under these heads after making slight alterations wherever it was found necessary.

(*q*) *Water Tax.*—The estimate is based on the average collection of the past two previous years.

XI. *Payments for Municipal Services rendered to individuals.*—The estimate under this item is also based on the average realization of the two previous years.

EXPENDITURE.

The sanctioned budget estimate figures have been retained in all the items for this year's estimate, except in the following cases.

II. *Head Office Charges.*—Besides the fixed charges a sum of Rs. 60 has been provided to meet the increment to the Manager's pay as per Government Order No. 13074-76—L. F. 319-96, dated 7th February 1902.

IV. *Conservancy,* (*a*) *Establishment.*—Besides the usual fixed charge of the establishment, Rs. 360 has been provided to meet the pay of the Assistant Sanitary Inspector, sanctioned by Government in their Proceedings No. 3344-6—L. F. 226-96, dated 4th March 1904.

VII. *Lighting.*—The increase of Rs. 150 under this head is due to the charge of 17 more lamps provided for the newly opened streets in the City in addition to 50 new lamps used to be provided for always.

VIII. *Public Works,* (*a*) *Establishment.*—Last year's sanctioned estimate is retained.

(*b*) to (*n*) *Works.*—The available funds after meeting fixed charges have been distributed under the several sub-heads. Particulars of works are given in Form II. All estimates for original works for Rs. 500 and upwards will be submitted to Government as usual.

Closing Balance.—Necessary closing balance has been retained.

Report of the Sub-Committee to the President of the Mysore City Municipality.

We, the members of the Sub-Committee appointed by the Board to discuss the budget estimates of this Municipality for the year 1905-06, have the honor to report that we have discussed each and every point of the Budget Estimates and have passed the same with necessary modifications in the expenditure side as particularized below :—

Head Office Establishment.—We propose that the pay of the Municipal accountant who is now drawing Rs. 20 a month be raised from Rs. 20 to 25 as the nature of the work which this official does is very important. The accountant in the Bangalore Municipality gets Rs. 60 a month.

Munshi.—This official who is drawing Rs. 20 a month since 1897 is an intelligent, hard-working and smart man. He has had no promotion for the last eight years. In the interests of the public service, we propose to raise his pay from Rs. 20 to 25 by an annual increment of Rs. 2-8-0, when he will at least have the status of a Taluk Head Munshi.

The office dafadar who gets a monthly salary of Rs. 7 is deserving promotion. Hence his pay has been proposed to be raised from Rs. 7 to 8, thus giving him the pay of a taluk dafadar.

Collection Branch.—As the shroff in this Municipality is maintaining Cash Books and other miscellaneous papers connected therewith, in addition to his onerous duty as shroff without the help of a gollar as in the Bangalore Municipality, we are inclined to increase his pay from Rs. 15 to Rs. 20 by an annual increment of Rs. 2-8 0, per month. This appointment will then be equal to that of a shroff in the taluk, and deputy shroff in the District Treasury.

Conservancy Department.—A provision of Rs. 10 per month as horse allowance to the Assistant Sanitary Inspector has been made in the budget in addition to his pay, as already recommended to Government by the President in his letter No. 120, dated the 6th January 1905, as per Board's Resolution No. III for the month of December 1904.

Lighting Charges.—As the provision of Rs. 9,400 made by the Vice-President under this head is considered insufficient to meet the demands as several roads and lanes have been newly opened by the Trust Board and for which more lights are required, it has been raised to Rs. 1,00,000.

Public Works Department, Road, Repairs.—The provision of Rs. 15,000 made in the budget is to be allotted mohalawar before expending it.

Buildings, Original.—The provision of Rs. 400 made for putting corrugated iron roof over the vegetable stalls in Devaraj Market being insufficient, it is proposed to raise it to Rs. 1,500.

We have, &c.,

3. The Court has in the circumstances ordered notice of execution by 2nd plaintiff alone, notice of appointment of Thangammal as guardian and also notice under Sections 234 and 248 to be published in the Gazette before the decree is transferred for execution from this Court to the Bangalore District Munsiff's Court.

III. Consideration of the Sub-Committee's report regarding the ensuing year's Municipal Budget estimates.

Resolved that the proposed increases of salaries amounting to Rs. 252 per annum be accepted as also the extra amount of Rs. 600 for lighting.

As regards distributing sums for the different mohallas for roads, &c., resolved that the proposal be carried out as far as possible. Proposal XI, report of the Sub-Committee on the Devaraj market requirements, was read and it was resolved that Rs. 1,500 set apart in the budget be utilised for this purpose by removing the fish market to the Mandi market and using the present fish market as a meat market and removing the present latrine to a more suitable place.

With these remarks the budget is passed.

IV. Secretary's docket No. 7231—Ml. 345-04, dated 18th February 1905, enquiring whether additional Sanitary Inspector Gulam Raja Beig is a certified Inspector and how his salary is being met in the absence of specific provision in the current year's budget estimates and whether the appointment was notified as directed in Government Order No. 3344-5—L. F. 226, dated 4th March 1904.

Resolved that this be replied to by the executive.

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

Charges of private advertisements must be forwarded to this office.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

B. K. VENKATA VARADA IYENGAR,
Secy. to Govt., Gen. & Rev. Dept.

To—All District Magistrates in Mysore.
The Inspector General of Police in Mysore.
The Military Assistant to the Government of His Highness the Maharaja of Mysore.
The Conservator of Forests in Mysore.

PART I.

Rules for the grant of passes and for guidance of Shooting Parties.

1. No warrant officer, non-commissioned officer or private soldier shall carry fire-arms for sporting purposes without a shooting pass. Shooting passes will only be granted to warrant officers and non-commissioned officers and to efficient private soldiers possessing at least one good-conduct badge. No private soldier, not qualified to be a member of a shooting party, shall be allowed to possess a rifle, carbine or gun of his own.

2. Warrant officers and sergeants may be granted passes to shoot alone provided that the officer granting the pass is satisfied that the warrant officer or sergeant has sufficient knowledge of the language to enable him to converse with the inhabitants, or if accompanied by a qualified native interpreter. With the above exceptions passes will only be granted to a party of not less than three and not more than six, one of whom shall be in charge of the party. The party must in all cases be accompanied by a native qualified to act as interpreter, whose name will be entered on the pass. One member may be left in charge of the camp, but the remainder of the party shall not separate while shooting.

3. All shooting passes will be granted on India Army Form L., 1181 (Appendix A). They will be granted by the officer commanding the corps or detachment to which the men belong or to which they are attached, who will keep a record of all passes granted. The names of the party and of the interpreter and the numbers and specification of the fire-arms carried will be entered on the pass and the certificate on the face of the pass will be signed by the squadron, battery-section or company officer, and countersigned by the commanding officer. Before the party starts the armourer sergeant, and in the case of a battery the section officer, will inspect all the fire-arms entered on the pass and will sign the certificate on the pass. No fire-arms not specified on the pass shall be carried or used, and no rifle or carbine shall be used, which carries Government ammunition, or is sighted over 300 yards. All bullets used with rifles or carbines for sporting purposes shall be hollow.

4. No person not named in the pass, except a shikari and game-coolies, shall accompany a shooting party.

5. Shooting passes as a rule shall not extend to more than 14 days, but special passes for periods not exceeding one month may be granted to men known to be experienced sportsmen, with the sanction of the General Officer Commanding the Division or Brigade. Men requiring passes to shoot at a distance, or for periods of more than three days must apply for the pass at least six days before the date on which they wish to start, so as to enable notice to be given to the district civil authorities as required by Rule 19.

6. The member of the party who is placed in charge shall carry the pass. He shall produce it when reasonably required to do so, and he shall at once return it to the squadron, battery or company orderly sergeant when the party comes back to camp or lines. On returning the pass he shall report any breach of these rules, any affray with natives, or any mishap, which may have occurred during the absence of the party. If any such event is reported, the non-commissioned officer to whom the pass is returned will at once inform the commanding officer; and the commanding officer will at once send to the District Magistrate the substance of the report, together with a copy of the complaint, if any.

7. There shall be no loading in the neighbourhood of camp or lines; and all fire-arms shall be unloaded as soon as the party leaves off shooting.

8. If any member of a shooting party commits any act resulting in injury to person or property, or is involved in an affray with natives, the party shall return to camp or lines without delay after reporting, if possible, to the nearest civil authority.

9. No shooting with bullets of any kind is permitted except in forest or close jungle, or in tracts of country where such shooting is not attended with danger. Shooting at night is forbidden, except in forests. Shooting in Government reserved forests is prohibited without a special permit from the forest officer.

10. No member of a shooting party shall address or enter into conversation with any native woman.

11. No member of a shooting party shall enter any village, house, temple, mosque or enclosure, or shall shoot within 500 yards of such. If supplies are to be obtained from a village, the interpreter may be employed for the purpose.

12. Members of shooting parties are forbidden to trespass upon or shoot over crops.

13. No member of a shooting party shall shoot at any animal or bird, or in any locality, included in the prohibited list shown on the pass.

14. Shooting at peafowl is prohibited, unless by special permission endorsed on the pass. No shooting at hinds, does, monkeys or dogs is permitted.

15. Fire-arms and ammunition used for sporting purposes, whether private property or issued by Government, shall be kept in the squadron, battery or company store-room in charge of the squadron sergeant-majors, quartermaster-sergeants or colour-sergeants. They will be issued by the above named non-commissioned officers, on production of a pass in which they are specified, and this duty shall not be delegated to any other person.

16. All fire-arms issued from the store-room and unused ammunition shall be returned to the sergeant in charge, who will sign for their receipt on the shooting pass, when the party comes back to camp or lines. All arms kept for sporting purposes shall be entered on the "daily state" of the corps or detachment; and shall be shown as "present," "on pass" or "absent."

17. These rules apply to troops on the march or in moving camps, as well as to troops in cantonments or standing camps.

18. Officers commanding stations, and officers commanding troops about to march will communicate with the civil district officer in order to ascertain—

(*a*) In what localities shooting ought to be forbidden.

(*b*) What animals or birds are regarded by the inhabitants, as sacred, or are protected by rules relating to the establishment of a close season.

19. Prior to the issue of a shooting pass which is to extend over three days, the commanding officer by whom it is to be granted shall send notice thereof to the district officer of any civil district in which the members of the party are to be permitted to shoot. This notice shall be despatched at least three days before the commencement of the currency of the shooting pass. The notice shall state the names and rank of the members of the party, the place or places which they are to visit and the dates indicating the duration of the pass.

20. For a Native state, the political officer in charge shall be deemed to be the district officer for the purposes of Rules 18 and 19. The notice furnished to the political officer under the latter rule shall be despatched at least three days beforehand; but such longer notice shall be given as is possible. Soldiers marching through a Native state are in no case to be permitted to shoot unless within ten miles of camp.

21. When men are permitted to shoot in the vicinity of a military station at a distance from their quarters, the following procedure shall be observed:—

(1) A furlough pass will be granted to them to the military station nearest to the country in which they intend to shoot. On the furlough pass will be an endorsement by the officer commanding the corps or detachment in red ink to the effect that the men are permitted to carry fire-arms and ammunition, and are eligible for a shooting pass. The furlough pass so endorsed shall be an authority to the sergeant in charge to issue arms and ammunition, to the party, after the armourer sergeant has signed the specification that the arms are in good condition and not contrary to Rule 3.

(2) A shooting pass will at the same time be given to them in the usual form with the omission of (*a*) the name of the interpreter, (*b*) the dates indicating the duration of the pass, (*c*) the list of prohibited localities, animals and birds and (*d*) the countersignature of the commanding officer.

(3) On arrival at the military station to which they are granted furlough, they shall report themselves to the military authorities at that station who will attach them to a military unit.

(4) The officer commanding the corps or detachment to which they are attached will, unless there are valid reasons to the contrary, complete the shooting pass by entering (*a*) the name of a qualified interpreter, (*b*) the dates indicating the duration of the pass and (*c*) the list of prohibited localities, animals and birds for the tracts of country where the members of the party intend to shoot; and will then add (*d*) his countersignature. He will also give the notice to the civil authorities required by Rule 19.

The possession of fire-arms and ammunition by members of the party is only allowed during the currency of the completed shooting pass; otherwise Rules 15 and 16 apply at the station to which the men are granted furlough.

PART II.

Rules for dealing with offences.

22. When any serious breach of these rules occurs, the officer commanding the corps or detachment will at once report the date and all the facts of the incident, so far as known, and also full details of the action taken, by telegram direct to the Adjutant General in India, repeating the message to the General Officer commanding the division and brigade; to the Deputy Adjutant General of the command and to the military Department of the Government of India. Detailed reports will be submitted subsequently by letter direct to the Adjutant General in India for the information of the Commander-in-chief and the Government of India. Copies of these reports will be furnished by the officers with whom they originate, through the usual channels, to command head-quarters for information.

23. In every such case the officer commanding the corps or detachment will immediately commence a thorough and searching investigation in view to securing the best possible narrative while the event is still fresh; and he will communicate with the district magistrate as freely as required. When the civil authorities also take up the case every assistance possible will be rendered to them in their investigation. The medical officer, who first attends to any person (whether soldier or

civilian) wounded in any such case, will, without delay, bring to the notice of both the civil and military authorities the nature and extent of the injuries received and their probable ultimate result.

24. Any warrant officer, non-commissioned officer or private soldier shooting without a pass shall be tried by court-martial, and shall on conviction be deprived of the privilege of shooting during the remainder of his Indian service. Also, any member of a shooting party who commits any breach of these rules resulting in material injury to person or property, shall be tried by court-martial. Cases of all other breaches of the rules shall be reported to the general officer commanding the division or brigade for orders.

25. When a court-martial is to be held under Rule 24 the case shall be sent to the Deputy Judge Advocate-General who shall frame the charges and prepare the brief for the prosecution, and the proceedings of the court-martial shall be sent to the same officer for report before confirmation. If a civil enquiry has been held on any case the proceedings of enquiry should accompany application for trial in view of all possible evidence being made available.

26. When a court-martial is held under these rules, the result will be reported for the information of the Commander-in-Chief and the Government of India.

27. If any breach of these rules, or any act committed by a member of a shooting party, results in an affray with natives, or in material injury to person or property, and the offender or offenders cannot be identified, all shooting passes may be prohibited in the corps or detachment, or in the district, for a period not exceeding two years at the discretion of the Lieutenant-General commanding. Every such, prohibition shall be published in command orders and reported for the information of the Commander-in-Chief and the Government of India.

PART III.

Special rules for warrant and non-commissioned officers of departments.

28. Shooting passes will be granted to warrant and non-commissioned officers of departments by the local departmental senior commissioned officer, in accordance with these rules so far as they may be applicable. Standing passes for a maximum period of six months, but subject to the rules relating to prohibited localities, animals and birds and to the other restrictions referred to above, may be granted to subordinates of the Military Works Department who are not employed in Cantonment. In every case the officer granting the pass is responsible for seeing that the list of prohibited localities, animals and birds is duly entered on the pass.

PART IV.

Publication of these Rules.

29. A copy of these rules and of the list of prohibited localities, animals and birds shall be hung up in a conspicuous place in every barrack-room.

30. Twice a year (in April and October on such day as the officer commanding directs) Rules 1 to 17 and Rules 24 and 27 shall be read on parade at the head of all British squadrons, batteries and companies (including convalescent depots and standing camps).

31. When troops disembark in India no shooting passes shall be granted until they arrive at their destination. On their arrival, and before any passes are granted, Rules 1 to 17 and Rules 24 and 27 shall be read on parade. An order calling attention to this rule shall be issued to the commanding officer of each corps or detachment before the troops disembark.

32. A copy of Rules 15 and 16 shall be hung up in every squadron, battery or company store-room.

33. Rules 1 to 17, 24 and 27 will be printed on the back of the shooting pass, India Army Form L., 1181 (Appendix A).

34. A copy of these rules will be issued with every shooting pass and will be carried by the member in charge of the party, who will give it back to the orderly sergeant with the pass on return to barracks or camp.

NOTE.

The following orders and rules of law apply to the civil inhabitants of localities in which soldiers are permitted to shoot.

The civil authorities will explain the substance of the rules and orders in simple language in all villages and tracts where soldiers are in the habit of shooting, warning them that soldiers are on no account to be attacked and that any such attacks will be severely punished, so that the inhabitants will have no excuse for interfering unwarrantably with members of a shooting party.

2. Landlords, headmen and village police will also be warned that they are expected to give their assistance in avoiding disputes between villagers and soldiers out shooting.

3. The rules for soldiers provide for punishment of a corps or detachment, or district, in the event of the offenders not being discovered. A similar responsibility may be enforced upon villages where affrays with British soldiers have occurred, if the villagers generally, or a considerable number of them, have made an unwarranted attack upon a shooting party, but the actual offenders have not been brought to justice. The villagers will be warned that in such cases they are liable by law to have extra police quartered upon them at their own expense.

4. The villagers will also be warned that they are not in any circumstances to take the law into their own hands, but are to lodge any complaint they have to make in a legal manner.

5. In cases which are not cognizable by the police, or where the prosecution is not undertaken by the civil authorities, the civil district officer will inform the commanding officer to that effect, for such action as the latter may consider fit to take.

APPENDIX B.

CONDUCT OF SOLDIERS TOWARDS NATIVES.

Notes for the information and guidance of soldiers out shooting by H. H. Risley, Esq., C.S.I., C.I.E., Secretary to the Government of India, Home Department, and Director of Ethnography for India.

The following instructions are prescribed for observation by non-commissioned officers and privates in their dealings with natives when out shooting under the pass rules. The facts and beliefs upon which the instructions are based are given in the illustrations.

The Compiler believes that most of the misunderstandings that arise between British soldiers and natives of India are due to ignorance on both sides. The soldier does not know what is likely to give offence; the native assumes that some act which

hurts his feelings has been done on purpose to annoy him. The following notes attempt to reduce the occasions for disagreement by explaining some of the customs, beliefs and superstitions which form a large part of the daily life of the Indian villager. When the holders of shooting passes realize that many usages which may strike them at first sight as absurd are looked upon by natives of India as extremely scared, and that interference with them may cause a man to be put out of caste or to be fined heavily for no fault of his own, the Compiler is confident that they will make it a point of honor to treat them with proper respect.

(1) Temples and Mosques should not be approached. Soldiers should also avoid the neighbourhood of—

(*a*) shrines, which may assume various forms ranging from a masonry building to a shapeless lump of clay, and may usually be recognised by the presence of flags or streamers, smears of vermilion, images or pictures of snakes, and holes or niches for lamps;

(*b*) cemeteries or isolated tombs or graves;

(*c*) burning ghats;

(*d*) trees, rocks, or other objects which are marked with vermilion, or on or near which flags have been erected, cotton rags tied or offerings placed;

(*e*) any strange looking object which may be connected with religious or superstitious observances.

(2) Soldiers should be careful not to eat in the neighbourhood of temples, shrines or houses and in no circumstances should they offer food to natives, either adults or children. In this connection they should bear in mind that beef is an abomination to Hindus and pork to Muhammadans. Tobacco is equally repugnant to Sikhs and it is not right to smoke near a Sikh place of worship or, if it can be avoided in the company of Sikhs.

(3) Natives should not be approached or looked at when they are engaged in cooking or in eating their food.

(4) Wells should be avoided as much as possible and in no circumstances should the buckets attached to the well be used for drawing water. If water is required from a village well the guide should be sent to get it.

(5) Soldiers should not attempt to borrow earthen or metal drinking vessels for their own use, since the earthen vessels would have to be destroyed and the metal ones would require ceremonial purification.

(6) Soldiers should be careful not to shoot on sacred tanks; such tanks can usually be recognised—

(*a*) by their having a small temple or shrine on the bank;

(*b*) by a pole planted in the middle of the tank with an iron trident or wheel on the top of it.

Nor should they fire at birds when sitting on sacred trees, such as the pipal or banian.

(7) Bathing ghats should be avoided, as they are frequented by women, both for bathing and for drawing water.

(8) Soldiers should avoid as far as possible taking any notice of either women or children. In the case of the former their motives are apt to be regarded with suspicion, while any attention shown to the latter is thought to cast upon them the evil eye.

(9) A hookah belonging to a native should never be touched, as it would be polluted and would have to be destroyed.

(10) Soldiers should avoid having anything to do with devotees, religious mendicants and fakirs.

(11) Soldiers should bear in mind that dogs are regarded by both Hindus and Muhammadans as unclean animals and should not allow their dogs to go near natives or their houses. They should also remember that pariah dogs, though apparently ownerless, are useful in guarding villages at night, and that natives object strongly to their being shot without sufficient cause.

(12) Threshing floors are sacred, especially when threshing or winnowing is going on, and should not be approached.

ILLUSTRATIONS.

1. *Introductory.*—For the purpose of these illustrations there may be said to be representatives of five non-Christian religions in India:—

(*a*) Hindus, who worship many gods.

(*b*) Muhammadans, who worship only one god.

(*c*) & (*d*) Jains and Buddhists, who recognise no god at all, but revere a number of men who are supposed to have attained a special spiritual condition.

(*e*) Animists, who worship an indefinite number of spirits or powers, mostly evil.

Hindus build temples with pointed tops; Muhammadans have mosques with domes and a varying number of minarets. Jain and Buddhist temples may be known by their fluted domes usually surmounted by flags or brass emblems.

Animists have no temples but respect and fear a large number of natural objects, such as rocks, trees, rivers, waterfalls, etc., especially those which have something unusual in their appearance.

Members of all the religions recognise a number of subordinate deities, saints, spirits, and the like, to whom are erected shrines which soldiers should on no account meddle with. Instances of these irregular forms of worship are given in the next paragraph.

2 *Shrines and Symbols.*—These are connected with the miscellaneous religious observances described below:—

(*a*) *Worship of the Sun and Moon.*—In many places rude representations of the sun and moon are carved on wooden pillers which are worshipped near a village. The Swastika or crooked cross, representing the sun is painted on the walls beside the door post to keep off the evil-eye, and appears in the form of two cross strokes with a daub of plaster on the shrine of the village god.

(*b*) *Worship of the Earth.*—In some districts a drum smeared with red lead forms part of the worship of the earth. In others a small hut of clods about a foot high, covered with fresh grass, and supported by two posts is erected at the edge of a field intended for the spring harvest as the temple of Machandri or mother earth.

(*c*) *Worship of Rivers and Springs.*—Khwaja Khizr, the god of water and the patron deity of boatmen, is worshipped all over India by setting afloat on a river or tank a little raft of grass with a lighted lamp placed upon it. Hot springs are everywhere sacred and should not be meddled with or approached.

(*d*) *Worship of Village Gods.*—

(i) In many villages Mahamai or the great mother has a shrine consisting of a low flat mound of earth with seven knobs of colored clay at the head or west side. Sometimes a flag is erected in front to the east.

(ii) The monkey god, Hanuman, is supposed to have power to scare evil spirits from his votaries and a rude image of him smeared with oil and red ochre is frequently met with in Hindu villages. He is the patron of wrestlers and at every wrestling place a platform smeared with cow-dung or earth is erected in his honor.

(iii) Bhimsen is also a village guardian and is represented—
(a) by a piece of iron fixed in a stone or in a tree;
(b) by a stone daubed with vermilion;
(c) by two posts of wood standing three or four feet high;
(d) by stone pillars called Bhimlath or Bhim's clubs.

(iv) The shrine of the god of the village is generally a small square building of brick masonry with a bulb-shaped top, sometimes surmounted by an iron spike. A red flag hung on a neighbouring tree marks its position and there are usually a few carved stones lying about which the villagers rub with vermilion and oil as an act of worship. Another form of the shrine is a pile of stones under an ancient sacred tree. Near these shrines are found little clay images of elephants and horses and clay bowls with short legs, while on the neighbouring trees are hung miniature cots to commemorate the recovery of a patient from small-pox or other infectious disease. Sometimes the shrine of the village god is a rude building of mud or bamboo and straw, roofed with a grass thatch; inside is a small platform, known as the seat of the god, on which water is placed in the earthen bowls already described, and cakes, milk and flowers are offered. Elsewhere the abode of the village god is marked by cross stakes of wood driven into the ground on the edge of the cultivated lands. In Southern India the village god Ayenar is represented by a rudely carved human figure, painted a reddish colour, sitting or riding with his two wives under a rough stone canopy. In Bengal the Sonthals erect a piece of split bamboo about 3 feet high as the *Sipahi* or sentinel of the village while the Gonds use two carved posts for the same purpose.

(e) *Worship of gods of disease.*—The goddess of cholera is worshipped in the form of a block of stone roughly hewn into the semblance of the human figure or is represented by a fragment of rough stone daubed with red ochre and placed beneath the boughs of an ancient banian tree. In one province a similar goddess known as Banspati Mai or the mistress of the jungle, has a shrine in the form of a pile of stones and branches to which every passer by contributes. In another, Ghentu, the god of itch, is represented by a broken earthenware cooking pot daubed with lime and turmeric with a branch or two of the Ghentu plant and a cocoanut broomstick. Mutua Deo, the god of fevers, is represented by a heap of stones inside the village to which a pig is sacrificed when fever prevails. Hardaul Lala, the god of cholera, has a shrine outside the village with a stone figure of the god on horseback, decorated with flags. The demon of cattle disease is warded off by wisps of straw tied round the trunk of acacia trees.

(f) *Worship of ancestors.*—All through the central portion of India slabs of stone are set up in the neighbourhood of villages as a resting place for dead ancestors, at which daily offerings of food are made.

(g) *Worship of Suttees.*—All over Upper India small shrines in honor of suttees, or women who burnt themselves on the funeral pyre of their husbands, are found on the banks of tanks. These shrines often take the form of a monument on which is carved the warrior on his charger with his wife standing behind him and the sun and moon on either side. Sometimes a snake is carved as if it were coming out of the tomb.

(h) *Worship of pirs or saints.*—Both Mussalmans and Hindus worship indiscriminately a number of militant saints. There are popularly supposed to be five *pirs*, and low caste Hindus worship them in the form of five wooden pegs set up in the court yard of the house. The members of a well-known criminal tribe build an altar in the shape of a tomb and offer to the *pirs* a fowl and some thin cakes which are given to a Muhammadan beggar who goes about beating a drum. In another form of

this worship an iron bar, robed in red cloth and adorned with flowers, represents Ghazi Miyan and is taken from door to door, drums being beaten and grain collected from the villagers. In many villages of the Punjab, *Sakhi Sarwar* has a plastered brick shrine with a high dome and low minarets or pillars and a masonry platform in front. *Guga Pir*, the governor of the snakes, is represented on horseback with a long staff in his hand round which a snake is coiled. *Teja Ji*, another god of the same character, is depicted as a man on horseback whose tongue is being bitten by a snake. *Nagardeo*, a saint who protects cattle, is represented in villages by a three-pronged pike or trident set up on a platform, and when cows are milked for the first time the milk is offered to him. *Kalu Kahar*, the son of a Kahar girl who by magical charms compelled King Solomon to marry her, is extensively worshipped in the Maratha country as a protector of cattle. His symbol is a stick covered with peacock's feathers to which offerings of food are made.

(*i*) *Worship of the malevolent dead.*—In many villages small platforms are built with rows of saucer-like holes into which milk and Ganges water are poured while lamps are lit and Brahmans watch to conciliate the Gayal or sonless ghost, the spirit of a man who died without a son to perform his funeral rites. In the hills the wild huntsman Airi, the ghost of a man who was killed while hunting, has his temples in deserted places, a trident representing the god and a number of surrounding stones his followers. In jungle districts the Baghaut or ghost of a man who is killed by a tiger has a shrine consisting of a heap of stones or branches near a pathway in the jungle. Every passer-by adds to the pile and the Baiga or jungle priest offers upon it a pig or a cock or some spirits, and lights a little lamp there occasionally.

Spirits, it is believed, cannot sit on the ground and for this reason near certain shrines two pegs or bricks are set up for the spirit to sit on, or a bamboo is hung for the spirit to perch on when he visits the place. For the same reason the Oraons hang up an urn containing the bones of a dead man on a post in front of the house in order that his spirit, finding a comfortable resting place in the urn, may not enter the house and annoy the living.

(*j*) *Worship of trees.*—Many trees are regarded as sacred in India, for reasons which need not be entered upon here. On account of this sanctity many Indian tribes bury their dead in trees. The Khasias and Nagas of Assam lay the body in the hollow trunk of a tree or hang it in a coffin to the branches. The Mariya Gonds of the Central Provinces tie the corpse to a tree and burn it. Among the Maler of the Sonthal Parganas priests, whose ghosts are apt to be troublesome, are laid under trees and covered with leaves. In the south of India when a man is worried by a spirit, he calls in a sorcerer who imprisons the spirit in a tree, at the foot of which is placed a stone, the size of a cocoanut, surrounded with other small stones, while the tree and the large stone are smeared with red lead, red powder, and frankincense.

Among the sacred trees the most important are the following :—

The Pipal *(Ficus religiosa)* which is worshipped by high caste Hindu women every month by watering its roots, smearing the trunk with red lead and ground sandal wood, and putting at the foot copper coins or sweetmeats which are the perquisite of beggars. Sometimes a string of cotton is twisted round the trunk and vessels of water are hung from the branches for the souls of the dead to drink from.

The Banian *(Ficus indica)* is also sacred and is worshipped in much the same way as the pipal.

In the Punjab the leaves of the Siras *(Acacia sirisa)* are hung up on a rope crossing the village cattle path to ward off epidemics, together with a on which

title magic words are written and rude models of wooden sandals, a rake, ploughshare and other agricultural implements, which are believed to scare the demon who brings the plague.

The Tulsi or Basil *(Ocymum sanctum)* is sacred to Vishnu, and is usually planted on small masonry pillars near houses.

(k) Worship of animals.—A number of animals are regarded as sacred by natives and soldiers should be careful not to shoot at or molest any of these mentioned below or in the local lists except snakes and tigers.

Snakes.—Snakes are generally sacred because of their mysterious power, because they are believed to protect houses and treasure, and because they are supposed to live long time and to be very wise. In the Punjab hills every householder has an image of a snake in charge of his homestead, and in Southern India similar images are very largely worshipped in the outskirts of villages.

Cows.—Although the worship of the cow by the Hindus is comparatively modern their prejudices on the subject are extremely strong. To kill, injure or insult a cow is regarded as the most serious of all crimes and the slaughter of kine is expressly prohibited in many Hindu states. Bulls are also sacred, especially those which have been dedicated to Siva and branded on the right hind quarter with the mark of his trident.

Monkeys are sacred as the embodiment of the god Hanuman.

Rats.—In Western India the rat is sacred as the animal on which the god Ganesha rides, and it is considered a great sin to kill a rat.

Squirrels.—The squirrel is sacred because it helped the god Rama to build a bridge between India and Ceylon when he went to recover his wife Sita from the demon Ravana. In gratitude for this service Rama stroked the squirrel, leaving the marks of three fingers on his back, and ordained that no man should kill him.

Tigers.—In Mirzapur and in the Central Provinces the Gond tiger-deity Gansam Deo has a shrine in the form of a platform of mud outside the village on which water pots and clay figures of horses and elephants are offered to him. Sometimes the shrine consists of a few blocks of rough stone smeared with vermilion surmounted by a garland and a bamboo with a red or yellow flag tied to the end.

Horses.—At the time of the Dasara festival, horses of stone and clay are worshipped by certain tribes, and horses made of rags are offered at the tombs of saints.

Dogs.—Although dogs are regarded by Hindus as unclean, the dog is associated with the worship of Bhairon or Bhairava, the guardian of Siva temples, and in Western India no Mahratta will injure a dog. In Poona the god Dattatreya is guarded by four dogs, which are said to represent the four Vedas, and at Jejuri and Nagpur children are dedicated to the dogs of Khande Rao, who is regarded as an incarnation of Siva, and is most frequently represented as riding on horseback attended by a dog.

Cats.—The cat is sacred to Shashthi or Chathi, the goddess of lockjaw which attacks children on the sixth (*chathi*) day after birth. Shashti is believed to ride upon a cat, and any Hindu who kills a cat, even by accident, ought to do penance for the sin by walking barefoot all the way to Benares on burning charcoal.

Doves and pigeons are held in much respect by Mahomedans, some of whom will on no account kill pigeons. Hindu traders (*banias*) also feed them in front of their houses or shops, and greatly resent their being killed.

Peacocks are sacred birds and are specially venerated by the Jats, who object strongly to seeing a peacock killed near their villages. Peacock feathers are believed to ward off disease if waved over the sick, and to smoke a peacock feather in a pipe is a charm against snake-bite.

Parrots.—In some parts of India natives object strongly to parrots being shot. The reason usually assigned is that the parrot has a hand like a man (the hind claws are prehensive) and can talk like a man ; therefore it is wrong to kill him.

(*l*) *Worship of fetishes.*—The worship of fetish stones prevails all over India, stones of phallic shape, and stones which have holes or perforations, among them the Salagram or Ammonite being regarded with special reverence.

A common religious emblem of this class is a small stone or masonry pillar standing in a sort of saucer with a lip to it. Sometimes the latter is absent and the pillar is represented by a rough water-worn stone, more or less oval in shape, smeared with vermilion. The god Siva is worshipped under this form. The symbol is extremely sacred and soldiers should be careful not to meddle with it.

The Sonthals worship a number of fetishes which are set up in their houses in order to keep off evil spirits, snakes and tigers. They consist of pieces of wood or stones painted red, arrowheads and tridents. In several parts of India rude wooden images, about three feet high with a rough representation of the human face on the top, are set up on platforms to protect the cattle from beasts of prey.

All castes of Hindus worship the tools, implements or weapons by which they earn their living. Among these fetishes the grain sieve, the plough, the basket, the broom, and the rice-pounder are of special sanctity and are believed to possess magical powers.

(*m*) *Rag offerings.*—There are many examples in India of the curious custom of hanging rags on trees and bushes or near sacred wells in order to ward off disease. In Garhwal a heap of stones is erected at the top of a pass with sticks and rags attached to them, to which travellers add a stone or two as they pass. Among the Kharwars of Mirzapur, the Baiga or village sorcerer hangs rags on the trees over the village shrine as a charm to bring health and good luck. In Berar a heap of stones daubed with red and placed under a tree fluttering with rags represents Chindia Deo, or the god of tatters, and it is believed that if a man presents a rag in due season, he may chance to get new clothes. Elsewhere when a man is ill, rags from his person are tied to a tree, especially a banian, cocoanut or some thorny tree. Another plan is to take the disease from the sick man and fix it in a tree by thrusting a nail into it or to catch the spirit of the disease in a bottle and tie the bottle to a tree. So in Mirzapur when fever prevails, the Pataris tie a cotton string, which has never touched water, round the trunk of a pipal tree and hang rags on the branches. The Kharwars have a sacred Mahua tree on which threads are hung at marriages. In Northern India disease may be transferred by filling a pot with flowers and rice and burying it under a stone in a path, or by erecting a little pile of earth decorated with flowers in the middle of the road containing some of the scales of the body of a small-pox patient. The idea is that if anybody touches the stone or the pile of earth, the disease will pass from the patient to them.

3. *Customs connected with the evil-eye.*—Natives dislike to hear their children praised, unless the praise be accompanied with some pious ejaculation. There is, however, no objection to noticing some conspicuous ornament or piece of dress, which children frequently wear as a protection against the evil-eye.

All natives are afraid of being stared at, especially by Europeans, and if they are looked at intently, they turn their eyes away through fear of fascination. It is believed that the nails of Europeans, like those of the Rakshasa or ogre, distil a deadly poison, and that this is the reason why they eat with knives and forks instead of with their fingers. Europeans are also believed to have control over ghosts, and it is commonly supposed that a European called "the momiai-wala sahib" has a monopoly of the right of enticing away fat boys, especially those who are very

blake for the purpose of making from their fat the magical ointment known as *momiai*, or mummy. A similar superstition is that of the "Dinapurwala sahib" who is believed to wander about procuring heads for museums armed with a magic stick with which he entices people on dark nights and chops off their heads with a pari, of shears. Early in 1904 the lower classes of natives in Calcutta were so firmly persuaded that a mysterious personage called the "Sirkatwa or head-cutting Sahib" was collecting heads to consolidate the foundations of the Victoria Memorial building that they refused to leave their houses after dark.

The metals are credited with great virtue in keeping off the evil-eye and malevolent demons. Accordingly while a house is being built, an iron pot or a pot painted black is kept on the works, and when it is finished, the daughter of the householder ties to the lintel of the door a charm which contains a small iron ring.

Shells are believed to have the same power, and for this reason women in Bengal wear shell armlets, and strings of cowrie-shells are tied round the neck or pasterns of horses and cows, as an antidote to the evil-eye. Blue beads are also used for the same purpose.

4. *Food, drink, etc.*—All Hindus and most Muhammadans are in constant terror of incurring ceremonial pollution, which has nothing to do with personal cleanliness and may be removed with the help of Mullahs or Brahmans by undergoing various penalties which in the case of Hindus may take the form of smearing the forehead with cowdung or swallowing the five products of the cow (*pancha gavya*)—milk, curds, butter, urine, and dung. Pollution is believed to be conveyed most readily by water. Consequently, a Hindu cannot take water from the hands of any one except a man of his own caste or of a caste higher than his own. The numerous Muhammadans who follow Hindu usages are influenced by similar prejudices. In either case the suggestion that a man has incurred pollution may lead to his being turned out of his caste, so that people will not drink with him, or smoke with him, and he may have to pay a substantial fine or give a feast to the caste community in order to be taken back. It follows therefore that a European should never offer water to a native or touch any vessel that might have to be used for drinking. For the same reason the hookah, in which water is used, may also convey pollution, and in some parts of India people are careful to tie some distinctive mark on to their hookahs so that no one may defile himself by mistake. Fire purifies; water pollutes; hence the distinction which holds good for the whole of Upper India between *kachchiroti*, or food cooked with water, and *pakki roti*, or food fried dry with ghee over a fire. The rules relating to the latter are much less strict than in the case of the former, but the safest line of conduct is to take no notice of any native while he is eating or cooking. Most natives particularly dislike being watched at their meals and make a pretence of eating in secret. One sect, indeed, is so particular in this respect, that if a stranger should look at them while they are cooking or eating, the food has at once to be buried in the ground. Some Brahmans in the south of India go further still and believe that earthenware cooking pots are polluted by a stranger even seeing them. They therefore keep their kitchen doors shut so that they may not have to break all their pots and pans. In the same part of the country cotton cloths become unclean if they are touched by a man of a lower caste and especially by a European or a pariah. Saliva is everywhere regarded as most impure and soldiers should be careful not to spit near temples or houses or in circumtances where it is likely to give offence. It should also be remembered that, for reasons which need not be entered on here, the left hand is considered peculiarly unclean.

5. *Wells* are usually dug with special religious observances and are consecrated by a rite symbolising the marriage of the well to the garden which it is intended to water. In some places the village well is worshipped by walking round it and smearing the platform with red lead.

Recorded.

4. Read Government Proceedings No. 8025-6—L. B. 13-04-5, dated 9th March 1905, sanctioning 2 additional carts for the removal of daily sweepings and for watering the avenue trees with effect from 1st July 1905.

Recorded.

5. Read Government Proceedings No. 8430-33—L. B. (285-04)-2, dated 16th March 1905, requesting the Chief Engineer to make the necessary arrangements for taking up the "Smith road" for maintenance by the Public Works Department.

Recorded.

6. Read Government Proceedings No. 7997-8—L. B. (283-047)-2, dated 8th March 1905, sanctioning the increase of pay to Bill Collectors and the appointment of a third Bill Collector on Rs. 15+5.

9. Read Government Proceedings No. 7369-78—San. 4-03, dated 7th March 1905, requesting the Deputy Commissioner, Kolar District, to take necessary action to transfer the entire plague expenditure to the Sanitary Board.

It was unanimously resolved after a thorough discussion of the question that Government be respectfully asked to reconsider their order having regard to the youth of the Sanitary Board and the number of necessary public works upon which its funds might usefully be expended, such as the construction of new roads, erecting Dhobikhana, perfecting conservancy arrangements by putting up incinerators, &c.

It was observed that if the Sanitary Board is asked to pay the plague expenditure the closing balance of the year 1905-6 will be considerably less than the prescribed minimum of $\frac{1}{4}$ of the total receipt as per standing orders of Government.

	Rs.
The estimated receipts	87,606
and the expenditure	65,600
leaving a closing balance of	22,000

The plague expenditure would amount to something like Rs. 10,000, which would leave only a balance of Rs. 12,000 and thus cripple the finances of the Board.

6. The accepted bidder shall, within four days of the acceptance of the bid, execute in favour of the Deputy Commissioner an agreement on a stamp paper with two tangible sureties for the due fulfilment of the contract and deliver it to the Amildar or Sheristadar, as the case may be, and thereupon the Deputy Commissioner will authorize the executant of the said mutchalika to enter into his contract. If the accepted bidder fails to execute and deliver the mutchalika, the lease will be re-sold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1905, the deposit being credited to the last three "Khists." All payments shall be made in the Treasury of the taluk in which the ferry lies.

11. At each ferry a board showing the rates and the weight to be carried should be put in a conspicuous place by the lessee at all times when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

12. The Deputy Commissioner reserves to himself the power of accepting or rejecting any bid without assigning any reasons therefor.

13. The contractor shall have a sufficient number of boats in readiness at either side of the ferry, and shall take care that mails, travellers, passengers, animals, carriages, etc., are not unnecessarily delayed whether by day or night, but are ferried over with expedition.

14. Every passenger crossing a ferry is allowed to carry with him his luggage not exceeding in weight an Indian maund without any additional fee for the same. Any quantity in excess of the above will be liable to an additional fee of one anna for each Indian maund or less.

B. K. VENKATA VARADA IYENGAR,
Secy. to Govt., Gen. & Rev. Dept.

To—All District Magistrates in Mysore.
The Inspector General of Police in Mysore.
The Military Assistant to the Government of His Highness the Maharaja of Mysore.
The Conservator of Forests in Mysore.

PART I.

Rules for the grant of passes and for guidance of Shooting Parties.

1. No warrant officer, non-commissioned officer or private soldier shall carry fire-arms for sporting purposes without a shooting pass. Shooting passes will only be granted to warrant officers and non-commissioned officers and to efficient private soldiers possessing at least one good-conduct badge. No private soldier, not qualified to be a member of a shooting party, shall be allowed to possess a rifle, carbine or gun of his own.

2. Warrant officers and sergeants may be granted passes to shoot alone provided that the officer granting the pass is satisfied that the warrant officer or sergeant has sufficient knowledge of the language to enable him to converse with the inhabitants, or if accompanied by a qualified native interpreter. With the above exceptions passes will only be granted to a party of not less than three and not more than six, one of whom shall be in charge of the party. The party must in all cases be accompanied by a native qualified to act as interpreter, whose name will be entered on the pass. One member may be left in charge of the camp, but the remainder of the party shall not separate while shooting.

3. All shooting passes will be granted on India Army Form L., 1181 (Appendix A). They will be granted by the officer commanding the corps or detachment to which the men belong or to which they are attached, who will keep a record of all passes granted. The names of the party and of the interpreter and the numbers and specification of the fire-arms carried will be entered on the pass and the certificate on the face of the pass will be signed by the squadron, battery-section or company officer, and countersigned by the commanding officer. Before the party starts the armourer sergeant, and in the case of a battery the section officer, will inspect all the fire-arms entered on the pass and will sign the certificate on the pass. No fire-arms not specified on the pass shall be carried or used, and no rifle or carbine shall be used, which carries Government ammunition, or is sighted over 300 yards. All bullets used with rifles or carbines for sporting purposes shall be hollow.

4. No person not named in the pass, except a shikari and game-coolies, shall accompany a shooting party.

5. Shooting passes as a rule shall not extend to more than 14 days, but special passes for periods not exceeding one month may be granted to men known to be experienced sportsmen, with the sanction of the General Officer Commanding the Division or Brigade. Men requiring passes to shoot at a distance, or for periods of more than three days must apply for the pass at least six days before the date on which they wish to start, so as to enable notice to be given to the district civil authorities as required by Rule 19.

6. The member of the party who is placed in charge shall carry the pass. He shall produce it when reasonably required to do so, and he shall at once return it to the squadron, battery or company orderly sergeant when the party comes back to camp or lines. On returning the pass he shall report any breach of these rules, any affray with natives, or any mishap, which may have occurred during the absence of the party. If any such event is reported, the non-commissioned officer to whom the pass is returned will at once inform the commanding officer; and the commanding officer will at once send to the District Magistrate the substance of the report, together with a copy of the complaint, if any.

7. There shall be no loading in the neighbourhood of camp or lines; and all fire-arms shall be unloaded as soon as the party leaves off shooting.

8. If any member of a shooting party commits any act resulting in injury to person or property, or is involved in an affray with natives, the party shall return to camp or lines without delay after reporting, if possible, to the nearest civil authority.

9. No shooting with bullets of any kind is permitted except in forest or close jungle, or in tracts of country where such shooting is not attended with danger. Shooting at night is forbidden, except in forests. Shooting in Government reserved forests is prohibited without a special permit from the forest officer.

10. No member of a shooting party shall address or enter into conversation with any native woman.

11. No member of a shooting party shall enter any village, house, temple, mosque or enclosure, or shall shoot within 500 yards of such. If supplies are to be obtained from a village, the interpreter may be employed for the purpose.

12. Members of shooting parties are forbidden to trespass upon or shoot over crops.

13. No member of a shooting party shall shoot at any animal or bird, or in any locality, included in the prohibited list shown on the pass.

14. Shooting at peafowl is prohibited, unless by special permission endorsed on the pass. No shooting at hinds, does, monkeys or dogs is permitted.

15. Fire-arms and ammunition used for sporting purposes, whether private property or issued by Government, shall be kept in the squadron, battery or company store-room in charge of the squadron sergeant-majors, quartermaster-sergeants or colour-sergeants. They will be issued by the above named non-commissioned officers, on production of a pass in which they are specified, and this duty shall not be delegated to any other person.

16. All fire-arms issued from the store-room and unused ammunition shall be returned to the sergeant in charge, who will sign for their receipt on the shooting pass, when the party comes back to camp or lines. All arms kept for sporting purposes shall be entered on the "daily state" of the corps or detachment; and shall be shown as "present," "on pass" or "absent."

17. These rules apply to troops on the march or in moving camps, as well as to troops in cantonments or standing camps.

18. Officers commanding stations, and officers commanding troops about to march will communicate with the civil district officer in order to ascertain—

(*a*) In what localities shooting ought to be forbidden.

(*b*) What animals or birds are regarded by the inhabitants, as sacred, or are protected by rules relating to the establishment of a close season.

19. Prior to the issue of a shooting pass which is to extend over three days, the commanding officer by whom it is to be granted shall send notice thereof to the district officer of any civil district in which the members of the party are to be permitted to shoot. This notice shall be despatched at least three days before the commencement of the currency of the shooting pass. The notice shall state the names and rank of the members of the party, the place or places which they are to visit and the dates indicating the duration of the pass.

20. For a Native state, the political officer in charge shall be deemed to be the district officer for the purposes of Rules 18 and 19. The notice furnished to the political officer under the latter rule shall be despatched at least three days beforehand; but such longer notice shall be given as is possible. Soldiers marching through a Native state are in no case to be permitted to shoot unless within ten miles of camp.

21. When men are permitted to shoot in the vicinity of a military station at a distance from their quarters, the following procedure shall be observed :—

(1) A furlough pass will be granted to them to the military station nearest to the country in which they intend to shoot. On the furlough pass will be an endorsement by the officer commanding the corps or detachment in red ink to the effect that the men are permitted to carry fire-arms and ammunition, and are eligible for a shooting pass. The furlough pass so endorsed shall be an authority to the sergeant in charge to issue arms and ammunition, to the party, after the armourer sergeant has signed the specification that the arms are in good condition and not contrary to Rule 3.

(2) A shooting pass will at the same time be given to them in the usual form with the omission of (*a*) the name of the interpreter, (*b*) the dates indicating the duration of the pass, (*c*) the list of prohibited localities, animals and birds and (*d*) the countersignature of the commanding officer.

(3) On arrival at the military station to which they are granted furlough, they shall report themselves to the military authorities at that station who will attach them to a military unit.

(4) The officer commanding the corps or detachment to which they are attached will, unless there are valid reasons to the contrary, complete the shooting pass by entering (*a*) the name of a qualified interpreter, (*b*) the dates indicating the duration of the pass and (*c*) the list of prohibited localities, animals and birds for the tracts of country where the members of the party intend to shoot; and will then add (*d*) his countersignature. He will also give the notice to the civil authorities required by Rule 19.

The possession of fire-arms and ammunition by members of the party is only allowed during the currency of the completed shooting pass; otherwise Rules 15 and 16 apply at the station to which the men are granted furlough.

PART II.

Rules for dealing with offences.

22. When any serious breach of these rules occurs, the officer commanding the corps or detachment will at once report the date and all the facts of the incident, so far as known, and also full details of the action taken, by telegram direct to the Adjutant General in India, repeating the message to the General Officer commanding the division and brigade; to the Deputy Adjutant General of the command and to the military Department of the Government of India. Detailed reports will be submitted subsequently by letter direct to the Adjutant General in India for the information of the Commander-in-chief and the Government of India. Copies of these reports will be furnished by the officers with whom they originate, through the usual channels, to command head-quarters for information.

23. In every such case the officer commanding the corps or detachment will immediately commence a thorough and searching investigation in view to securing the best possible narrative while the event is still fresh; and he will communicate with the district magistrate as freely as required. When the civil authorities also take up the case every assistance possible will be rendered to them in their investigation. The medical officer, who first attends to any person (whether soldier or

civilian) wounded in any such case, will, without delay, bring to the notice of both the civil and military authorities the nature and extent of the injuries received and their probable ultimate result.

24. Any warrant officer, non-commissioned officer or private soldier shooting without a pass shall be tried by court-martial, and shall on conviction be deprived of the privilege of shooting during the remainder of his Indian service. Also, any member of a shooting party who commits any breach of these rules resulting in material injury to person or property, shall be tried by court-martial. Cases of all other breaches of the rules shall be reported to the general officer commanding the division or brigade for orders.

25. When a court-martial is to be held under Rule 24 the case shall be sent to the Deputy Judge Advocate-General who shall frame the charges and prepare the brief for the prosecution, and the proceedings of the court-martial shall be sent to the same officer for report before confirmation. If a civil enquiry has been held on any case the proceedings of enquiry should accompany application for trial in view of all possible evidence being made available.

26. When a court-martial is held under these rules, the result will be reported for the information of the Commander-in-Chief and the Government of India.

27. If any breach of these rules, or any act committed by a member of a shooting party, results in an affray with natives, or in material injury to person or property, and the offender or offenders cannot be identified, all shooting passes may be prohibited in the corps or detachment, or in the district, for a period not exceeding two years at the discretion of the Lieutenant-General commanding. Every such, prohibition shall be published in command orders and reported for the information of the Commander-in-Chief and the Government of India.

PART III.

Special rules for warrant and non-commissioned officers of departments.

28. Shooting passes will be granted to warrant and non-commissioned officers of departments by the local departmental senior commissioned officer, in accordance with these rules so far as they may be applicable. Standing passes for a maximum period of six months, but subject to the rules relating to prohibited localities, animals and birds and to the other restrictions referred to above, may be granted to subordinates of the Military Works Department who are not employed in Cantonment. In every case the officer granting the pass is responsible for seeing that the list of prohibited localities, animals and birds is duly entered on the pass.

PART IV.

Publication of these Rules.

29. A copy of these rules and of the list of prohibited localities, animals and birds shall be hung up in a conspicuous place in every barrack-room.

30. Twice a year (in April and October on such day as the officer commanding directs) Rules 1 to 17 and Rules 24 and 27 shall be read on parade at the head of all British squadrons, batteries and companies (including convalescent depots and standing camps).

31. When troops disembark in India no shooting passes shall be granted until they arrive at their destination. On their arrival, and before any passes are granted, Rules 1 to 17 and Rules 24 and 27 shall be read on parade. An order calling attention to this rule shall be issued to the commanding officer of each corps or detachment before the troops disembark.

824

32. A copy of Rules 15 and 16 shall be hung up in every squadron, battery or company store-room.

33. Rules 1 to 17, 24 and 27 will be printed on the back of the shooting pass, India Army Form L., 1181 (Appendix A).

34. A copy of these rules will be issued with every shooting pass and will be carried by the member in charge of the party, who will give it back to the orderly sergeant with the pass on return to barracks or camp.

NOTE.

The following orders and rules of law apply to the civil inhabitants of localities in which soldiers are permitted to shoot.

The civil authorities will explain the substance of the rules and orders in simple language in all villages and tracts where soldiers are in the habit of shooting, warning them that soldiers are on no account to be attacked and that any such attacks will be severely punished, so that the inhabitants will have no excuse for interfering unwarrantably with members of a shooting party.

2. Landlords, headmen and village police will also be warned that they are expected to give their assistance in avoiding disputes between villagers and soldiers out shooting.

3. The rules for soldiers provide for punishment of a corps or detachment, or district, in the event of the offenders not being discovered. A similar responsibility may be enforced upon villages where affrays with British soldiers have occurred, if the villagers generally, or a considerable number of them, have made an unwarranted attack upon a shooting party, but the actual offenders have not been brought to justice. The villagers will be warned that in such cases they are liable by law to have extra police quartered upon them at their own expense.

4. The villagers will also be warned that they are not in any circumstances to take the law into their own hands, but are to lodge any complaint they have to make in a legal manner.

5. In cases which are not cognizable by the police, or where the prosecution is not undertaken by the civil authorities, the civil district officer will inform the commanding officer to that effect, for such action as the latter may consider fit to take.

APPENDIX B.

CONDUCT OF SOLDIERS TOWARDS NATIVES.

Notes for the information and guidance of soldiers out shooting by H. H. Risley, Esq., C.S.I., C.I.E., Secretary to the Government of India, Home Department, and Director of Ethnography for India.

The following instructions are prescribed for observation by non-commissioned officers and privates in their dealings with natives when out shooting under the pass rules. The facts and beliefs upon which the instructions are based are given in the illustrations.

The Compiler believes that most of the misunderstandings that arise between British soldiers and natives of India are due to ignorance on both sides. The soldier does not know what is likely to give offence; the native assumes that some act which

hurts his feelings has been done on purpose to annoy him. The following notes attempt to reduce the occasions for disagreement by explaining some of the customs, beliefs and superstitions which form a large part of the daily life of the Indian villager. When the holders of shooting passes realize that many usages which may strike them at first sight as absurd are looked upon by natives of India as extremely scared, and that interference with them may cause a man to be put out of caste or to be fined heavily for no fault of his own, the Compiler is confident that they will make it a point of honor to treat them with proper respect.

(1) Temples and Mosques should not be approached. Soldiers should also avoid the neighbourhood of—

(*a*) shrines, which may assume various forms ranging from a masonry building to a shapeless lump of clay, and may usually be recognised by the presence of flags or streamers, smears of vermilion, images or pictures of snakes, and holes or niches for lamps;

(*b*) cemeteries or isolated tombs or graves;

(*c*) burning ghats;

(*d*) trees, rocks, or other objects which are marked with vermilion, or on or near which flags have been erected, cotton rags tied or offerings placed;

(*e*) any strange looking object which may be connected with religious or superstitious observances.

(2) Soldiers should be careful not to eat in the neighbourhood of temples, shrines or houses and in no circumstances should they offer food to natives, either adults or children. In this connection they should bear in mind that beef is an abomination to Hindus and pork to Muhammadans. Tobacco is equally repugnant to Sikhs and it is not right to smoke near a Sikh place of worship or, if it can be avoided in the company of Sikhs.

(3) Natives should not be approached or looked at when they are engaged in cooking or in eating their food.

(4) Wells should be avoided as much as possible and in no circumstances should the buckets attached to the well be used for drawing water. If water is required from a village well the guide should be sent to get it.

(5) Soldiers should not attempt to borrow earthen or metal drinking vessels for their own use, since the earthen vessels would have to be destroyed and the metal ones would require ceremonial purification.

(6) Soldiers should be careful not to shoot on sacred tanks; such tanks can usually be recognised—

(*a*) by their having a small temple or shrine on the bank;

(*b*) by a pole planted in the middle of the tank with an iron trident or wheel on the top of it.

Nor should they fire at birds when sitting on sacred trees, such as the pipal or banian.

(7) Bathing ghats should be avoided, as they are frequented by women, both for bathing and for drawing water.

(8) Soldiers should avoid as far as possible taking any notice of either women or children. In the case of the former their motives are apt to be regarded with suspicion, while any attention shown to the latter is thought to cast upon them the evil-eye.

(9) A hookah belonging to a native should never be touched, as it would be polluted and would have to be destroyed.

(10) Soldiers should avoid having anything to do with devotees, religious mendicants and fakirs.

(11) Soldiers should bear in mind that dogs are regarded by both Hindus and Muhammadans as unclean animals and should not allow their dogs to go near natives or their houses. They should also remember that pariah dogs, though apparently ownerless, are useful in guarding villages at night, and that natives object strongly to their being shot without sufficient cause.

(12) Threshing floors are sacred, especially when threshing or winnowing is going on, and should not be approached.

ILLUSTRATIONS.

1. *Introductory.*—For the purpose of these illustrations there may be said to be representatives of five non-Christian religions in India :—

(*a*) Hindus, who worship many gods.

(*b*) Muhammadans, who worship only one god.

(*c*) & (*d*) Jains and Buddhists, who recognise no god at all, but revere a number of men who are supposed to have attained a special spiritual condition.

(*e*) Animists, who worship an indefinite number of spirits or powers, mostly evil.

Hindus build temples with pointed tops; Muhammadans have mosques with domes and a varying number of minarets. Jain and Buddhist temples may be known by their fluted domes usually surmounted by flags or brass emblems.

Animists have no temples but respect and fear a large number of natural objects, such as rocks, trees, rivers, waterfalls, etc., especially those which have something unusual in their appearance.

Members of all the religions recognise a number of subordinate deities, saints, spirits, and the like, to whom are erected shrines which soldiers should on no account meddle with. Instances of these irregular forms of worship are given in the next paragraph.

2. *Shrines and Symbols.*—These are connected with the miscellaneous religious observances described below :—

(*a*) *Worship of the Sun and Moon.*—In many places rude representations of the sun and moon are carved on wooden pillers which are worshipped near a village. The Swastika or crooked cross, representing the sun is painted on the walls beside the door post to keep off the evil-eye, and appears in the form of two cross strokes with a daub of plaster on the shrine of the village god.

(*b*) *Worship of the Earth.*—In some districts a drum smeared with red lead forms part of the worship of the earth. In others a small hut of clods about a foot high, covered with fresh grass, and supported by two posts is erected at the edge of a field intended for the spring harvest as the temple of Machandri or mother earth.

(*c*) *Worship of Rivers and Springs.*—Khwaja Khizr, the god of water and the patron deity of boatmen, is worshipped all over India by setting afloat on a river or tank a little raft of grass with a lighted lamp placed upon it. Hot springs are everywhere sacred and should not be meddled with or approached.

(*d*) *Worship of Village Gods.*—

(i) In many villages Mahamai or the great mother has a shrine consisting of a low flat mound of earth with seven knobs of colored clay at the head or west side. Sometimes a flag is erected in front to the east.

(ii) The monkey god, Hanuman, is supposed to have power to scare evil spirits from his votaries and a rude image of him smeared with oil and red ochre is frequently met with in Hindu villages. He is the patron of wrestlers and at every wrestling place a platform smeared with cow-dung or earth is erected in his honor.

(iii) Bhimsen is also a village guardian and is represented—
(a) by a piece of iron fixed in a stone or in a tree;
(b) by a stone daubed with vermilion;
(c) by two posts of wood standing three or four feet high;
(d) by stone pillars called Bhimlath or Bhim's clubs.

(iv) The shrine of the god of the village is generally a small square building of brick masonry with a bulb-shaped top, sometimes surmounted by an iron spike. A red flag hung on a neighbouring tree marks its position and there are usually a few carved stones lying about which the villagers rub with vermilion and oil as an act of worship. Another form of the shrine is a pile of stones under an ancient sacred tree. Near these shrines are found little clay images of elephants and horses and clay bowls with short legs, while on the neighbouring trees are hung miniature cots to commemorate the recovery of a patient from small-pox or other infectious disease. Sometimes the shrine of the village god is a rude building of mud or bamboo and straw, roofed with a grass thatch; inside is a small platform, known as the seat of the god, on which water is placed in the earthen bowls already described, and cakes, milk and flowers are offered. Elsewhere the abode of the village god is marked by cross stakes of wood driven into the ground on the edge of the cultivated lands. In Southern India the village god Ayenar is represented by a rudely carved human figure, painted a reddish colour, sitting or riding with his two wives under a rough stone canopy. In Bengal the Sonthals erect a piece of split bamboo about 3 feet high as the *Sipahi* or sentinel of the village while the Gonds use two carved posts for the same purpose.

(e) *Worship of gods of disease.*—The goddess of cholera is worshipped in the form of a block of stone roughly hewn into the semblance of the human figure or is represented by a fragment of rough stone daubed with red ochre and placed beneath the boughs of an ancient banian tree. In one province a similar goddess known as Banspati Mai or the mistress of the jungle, has a shrine in the form of a pile of stones and branches to which every passer by contributes. In another, Ghentu, the god of itch, is represented by a broken earthenware cooking pot daubed with lime and turmeric with a branch or two of the Ghentu plant and a cocoanut broomstick. Mutua Deo, the god of fevers, is represented by a heap of stones inside the village to which a pig is sacrificed when fever prevails. Hardaul Lala, the god of cholera, has a shrine outside the village with a stone figure of the god on horseback, decorated with flags. The demon of cattle disease is warded off by wisps of straw tied round the trunk of acacia trees.

(f) *Worship of ancestors.*—All through the central portion of India slabs of stone are set up in the neighbourhood of villages as a resting place for dead ancestors, at which daily offerings of food are made.

(g) *Worship of Suttees.*—All over Upper India small shrines in honor of suttees, or women who burnt themselves on the funeral pyre of their husbands, are found on the banks of tanks. These shrines often take the form of a monument on which is carved the warrior on his charger with his wife standing behind him and the sun and moon on either side. Sometimes a snake is carved as if it were coming out of the tomb.

(h) *Worship of pirs or saints.*—Both Mussalmans and Hindus worship indiscriminately a number of militant saints. There are popularly supposed to be five *pirs*, and low caste Hindus worship them in the form of five wooden pegs set up in the court yard of the house. The members of a well-known criminal tribe build an altar in the shape of a tomb and offer to the *pirs* a fowl and some thin cakes which are given to a Muhammadan beggar who goes about beating a drum. In another form of

this worship an iron bar, robed in red cloth and adorned with flowers, represents Ghazi Miyan and is taken from door to door, drums being beaten and grain collected from the villagers. In many villages of the Punjab, *Sakhi Sarwar* has a plastered brick shrine with a high dome and low minarets or pillars and a masonry platform in front. *Guga Pir*, the governor of the snakes, is represented on horseback with a long staff in his hand round which a snake is coiled. *Teja Ji*, another god of the same character, is depicted as a man on horseback whose tongue is being bitten by a snake. *Nagardeo*, a saint who protects cattle, is represented in villages by a three-pronged pike or trident set up on a platform, and when cows are milked for the first time the milk is offered to him. *Kalu Kahar*, the son of a Kahar girl who by magical charms compelled King Solomon to marry her, is extensively worshipped in the Maratha country as a protector of cattle. His symbol is a stick covered with peacock's feathers to which offerings of food are made.

(*i*) *Worship of the malevolent dead.*—In many villages small platforms are built with rows of saucer-like holes into which milk and Ganges water are poured while lamps are lit and Brahmans watch to conciliate the Gayal or sonless ghost, the spirit of a man who died without a son to perform his funeral rites. In the hills the wild huntsman Airi, the ghost of a man who was killed while hunting, has his temples in deserted places, a trident representing the god and a number of surrounding stones his followers. In jungle districts the Baghaut or ghost of a man who is killed by a tiger has a shrine consisting of a heap of stones or branches near a pathway in the jungle. Every passer-by adds to the pile and the Baiga or jungle priest offers upon it a pig or a cock or some spirits, and lights a little lamp there occasionally.

Spirits, it is believed, cannot sit on the ground and for this reason near certain shrines two pegs or bricks are set up for the spirit to sit on, or a bamboo is hung for the spirit to perch on when he visits the place. For the same reason the Oraons hang up an urn containing the bones of a dead man on a post in front of the house in order that his spirit, finding a comfortable resting place in the urn, may not enter the house and annoy the living.

(*j*) *Worship of trees.*—Many trees are regarded as sacred in India, for reasons which need not be entered upon here. On account of this sanctity many Indian tribes bury their dead in trees. The Khasias and Nagas of Assam lay the body in the hollow trunk of a tree or hang it in a coffin to the branches. The Mariya Gonds of the Central Provinces tie the corpse to a tree and burn it. Among the Maler of the Sonthal Parganas priests, whose ghosts are apt to be troublesome, are laid under trees and covered with leaves. In the south of India when a man is worried by a spirit, he calls in a sorcerer who imprisons the spirit in a tree, at the foot of which is placed a stone, the size of a cocoanut, surrounded with other small stones, while the tree and the large stone are smeared with red lead, red powder, and frankincense.

Among the sacred trees the most important are the following :—

The Pipal *(Ficus religiosa)* which is worshipped by high caste Hindu women every month by watering its roots, smearing the trunk with red lead and ground sandal wood, and putting at the foot copper coins or sweetmeats which are the perquisite of beggars. Sometimes a string of cotton is twisted round the trunk and vessels of water are hung from the branches for the souls of the dead to drink from.

The Banian *(Ficus indica)* is also sacred and is worshipped in much the same way as the pipal.

In the Punjab the leaves of the Siras *(Acacia sirisa)* are hung up on a rope crossing the village cattle path to ward off epidemics, together with a on which

title magic words are written and rude models of wooden sandals, a rake, ploughshare and other agricultural implements, which are believed to scare the demon who brings the plague.

The Tulsi or Basil *(Ocymum sanctum)* is sacred to Vishnu, and is usually planted on small masonry pillars near houses.

(k) Worship of animals.—A number of animals are regarded as sacred by natives and soldiers should be careful not to shoot at or molest any of these mentioned below or in the local lists except snakes and tigers.

Snakes.—Snakes are generally sacred because of their mysterious power, because they are believed to protect houses and treasure, and because they are supposed to live long time and to be very wise. In the Punjab hills every householder has an image of a snake in charge of his homestead, and in Southern India similar images are very largely worshipped in the outskirts of villages.

Cows.—Although the worship of the cow by the Hindus is comparatively modern their prejudices on the subject are extremely strong. To kill, injure or insult a cow is regarded as the most serious of all crimes and the slaughter of kine is expressly prohibited in many Hindu states. Bulls are also sacred, especially those which have been dedicated to Siva and branded on the right hind quarter with the mark of his trident.

Monkeys are sacred as the embodiment of the god Hanuman.

Rats.—In Western India the rat is sacred as the animal on which the god Ganesha rides, and it is considered a great sin to kill a rat.

Squirrels.—The squirrel is sacred because it helped the god Rama to build a bridge between India and Ceylon when he went to recover his wife Sita from the demon Ravana. In gratitude for this service Rama stroked the squirrel, leaving the marks of three fingers on his back, and ordained that no man should kill him.

Tigers.—In Mirzapur and in the Central Provinces the Gond tiger-deity Gansam Deo has a shrine in the form of a platform of mud outside the village on which water pots and clay figures of horses and elephants are offered to him. Sometimes the shrine consists of a few blocks of rough stone smeared with vermilion surmounted by a garland and a bamboo with a red or yellow flag tied to the end.

Horses.—At the time of the Dasara festival, horses of stone and clay are worshipped by certain tribes, and horses made of rags are offered at the tombs of saints.

Dogs.—Although dogs are regarded by Hindus as unclean, the dog is associated with the worship of Bhairon or Bhairava, the guardian of Siva temples, and in Western India no Mahratta will injure a dog. In Poona the god Dattatreya is guarded by four dogs, which are said to represent the four Vedas, and at Jejuri and Nagpur children are dedicated to the dogs of Khande Rao, who is regarded as an incarnation of Siva, and is most frequently represented as riding on horseback attended by a dog.

Cats.—The cat is sacred to Shashthi or Chathi, the goddess of lockjaw which attacks children on the sixth (*chathi*) day after birth. Shashti is believed to ride upon a cat, and any Hindu who kills a cat, even by accident, ought to do penance for the sin by walking barefoot all the way to Benares on burning charcoal.

Doves and pigeons are held in much respect by Mahomedans, some of whom will on no account kill pigeons. Hindu traders (*banias*) also feed them in front of their houses or shops, and greatly resent their being killed.

Peacocks are sacred birds and are specially venerated by the Jats, who object strongly to seeing a peacock killed near their villages. Peacock feathers are believed to ward off disease if waved over the sick, and to smoke a peacock feather in a pipe is a charm against snake-bite.

Parrots.—In some parts of India natives object strongly to parrots being shot. The reason usually assigned is that the parrot has a hand like a man (the hind claws are prehensive) and can talk like a man ; therefore it is wrong to kill him.

(*l*) *Worship of fetishes.*—The worship of fetish stones prevails all over India, stones of phallic shape, and stones which have holes or perforations, among them the Salagram or Ammonite being regarded with special reverence.

A common religious emblem of this class is a small stone or masonry pillar standing in a sort of saucer with a lip to it. Sometimes the latter is absent and the pillar is represented by a rough water-worn stone, more or less oval in shape, smeared with vermilion. The god Siva is worshipped under this form. The symbol is extremely sacred and soldiers should be careful not to meddle with it.

The Sonthals worship a number of fetishes which are set up in their houses in order to keep off evil spirits, snakes and tigers. They consist of pieces of wood or stones painted red, arrowheads and tridents. In several parts of India rude wooden images, about three feet high with a rough representation of the human face on the top, are set up on platforms to protect the cattle from beasts of prey.

All castes of Hindus worship the tools, implements or weapons by which they earn their living. Among these fetishes the grain sieve, the plough, the basket, the broom, and the rice-pounder are of special sanctity and are believed to possess magical powers.

(*m*) *Rag offerings.*—There are many examples in India of the curious custom of hanging rags on trees and bushes or near sacred wells in order to ward off disease. In Garhwal a heap of stones is erected at the top of a pass with sticks and rags attached to them, to which travellers add a stone or two as they pass. Among the Kharwars of Mirzapur, the Baiga or village sorcerer hangs rags on the trees over the village shrine as a charm to bring health and good luck. In Berar a heap of stones daubed with red and placed under a tree fluttering with rags represents Chindia Deo, or the god of tatters, and it is believed that if a man presents a rag in due season, he may chance to get new clothes. Elsewhere when a man is ill, rags from his person are tied to a tree, especially a banian, cocoanut or some thorny tree. Another plan is to take the disease from the sick man and fix it in a tree by thrusting a nail into it or to catch the spirit of the disease in a bottle and tie the bottle to a tree. So in Mirzapur when fever prevails, the Pataris tie a cotton string, which has never touched water, round the trunk of a pipal tree and hang rags on the branches. The Kharwars have a sacred Mahua tree on which threads are hung at marriages. In Northern India disease may be transferred by filling a pot with flowers and rice and burying it under a stone in a path, or by erecting a little pile of earth decorated with flowers in the middle of the road containing some of the scales of the body of a small-pox patient. The idea is that if anybody touches the stone or the pile of earth, the disease will pass from the patient to them.

3. *Customs connected with the evil-eye.*—Natives dislike to hear their children praised, unless the praise be accompanied with some pious ejaculation. There is, however, no objection to noticing some conspicuous ornament or piece of dress, which children frequently wear as a protection against the evil-eye.

All natives are afraid of being stared at, especially by Europeans, and if they are looked at intently, they turn their eyes away through fear of fascination. It is believed that the nails of Europeans, like those of the Rakshasa or ogre, distil a deadly poison, and that this is the reason why they eat with knives and forks instead of with their fingers. Europeans are also believed to have control over ghosts, and it is commonly supposed that a European called "the momiai-wala sahib" has a monopoly of the right of enticing away fat boys, especially those who are very

blakc for the purpose of making from their fat the magical ointment known as *momiai*, or mummy. A similar superstition is that of the "Dinapurwala sahib" who is believed to wander about procuring heads for museums armed with a magic stick with which he entices people on dark nights and chops off their heads with a pari, of shears. Early in 1904 the lower classes of natives in Calcutta were so firmly persuaded that a mysterious personage called the "Sirkatwa or head-cutting Sahib" was collecting heads to consolidate the foundations of the Victoria Memorial building that they refused to leave their houses after dark.

The metals are credited with great virtue in keeping off the evil-eye and malevolent demons. Accordingly while a house is being built, an iron pot or a pot painted black is kept on the works, and when it is finished, the daughter of the householder ties to the lintel of the door a charm which contains a small iron ring

Shells are believed to have the same power, and for this reason women in Bengal wear shell armlets, and strings of cowrie-shells are tied round the neck or pasterns of horses and cows, as an antidote to the evil-eye. Blue beads are also used for the same purpose.

4. *Food, drink, etc.*—All Hindus and most Muhammadans are in constant terror of incurring ceremonial pollution, which has nothing to do with personal cleanliness and may be removed with the help of Mullahs or Brahmans by undergoing various penalties which in the case of Hindus may take the form of smearing the forehead with cowdung or swallowing the five products of the cow (*pancha gavya*)—milk, curds, butter, urine, and dung. Pollution is believed to be conveyed most readily by water. Consequently, a Hindu cannot take water from the hands of any one except a man of his own caste or of a caste higher than his own. The numerous Muhammadans who follow Hindu usages are influenced by similar prejudices. In either case the suggestion that a man has incurred pollution may lead to his being turned out of his caste, so that people will not drink with him, or smoke with him, and he may have to pay a substantial fine or give a feast to the caste community in order to be taken back. It follows therefore that a European should never offer water to a native or touch any vessel that might have to be used for drinking. For the same reason the hookah, in which water is used, may also convey pollution, and in some parts of India people are careful to tie some distinctive mark on to their hookahs so that no one may defile himself by mistake. Fire purifies; water pollutes; hence the distinction which holds good for the whole of Upper India between *kachchiroti*, or food cooked with water, and *pakki roti*, or food fried dry with ghee over a fire. The rules relating to the latter are much less strict than in the case of the former, but the safest line of conduct is to take no notice of any native while he is eating or cooking. Most natives particularly dislike being watched at their meals and make a pretence of eating in secret. One sect, indeed, is so particular in this respect, that if a stranger should look at them while they are cooking or eating, the food has at once to be buried in the ground. Some Brahmans in the south of India go further still and believe that earthenware cooking pots are polluted by a stranger even seeing them. They therefore keep their kitchen doors shut so that they may not have to break all their pots and pans. In the same part of the country cotton cloths become unclean if they are touched by a man of a lower caste and especially by a European or a pariah. Saliva is everywhere regarded as most impure and soldiers should be careful not to spit near temples or houses or in circumtances where it is likely to give offence. It should also be remembered that, for reasons which need not be entered on here, the left hand is considered peculiarly unclean.

5. *Wells* are usually dug with special religious observances and are consecrated by a rite symbolising the marriage of the well to the garden which it is intended to water. In some places the village well is worshipped by walking round it and smearing the platform with red lead.

I. Read docket No. 514, dated 20th—22nd December 1904, from the Executive Engineer Hassan Division, regarding sinking of a well in the compound of the Dispensary at Saklespur.

Resolution.—Resolved that as the Saklespur Municipal Board would have to contribute a third of the cost of this work, the resolution of that Board be obtained as to necessity of the work.

II. Read docket No. 510, dated 18—19th December 1904, from the Executive Engineer, Hassan Division, regarding an estimate amounting to Rs. 2,830 for carrying out certain additions and alterations to the Female Dispensary at Hassan.

Resolution.—Resolved that there is no provision for the work this year, and that District Funds cannot afford to contribute a sum of Rs. 950 as a third of the cost of the work.

III. Read docket No. 5, dated 5th January 1905, from the Executive Engineer, Hassan Division, regarding claiming a share of the net realisations at the toll-gates established by the Coorg Government on the roads from Arkalgud and Manjarabad to Kudlipet.

Resolution.—Resolved that the Government of Mysore be moved to address the Coorg Government in the matter of granting a proportionate share of the net realisations of the two toll-gates on the Coorg frontiers of Arkalgud-Kudlipet-Manjarabad road, or to authorise the establishment of two corresponding toll-gates on the Mysore State frontiers of that road.

IV. Read docket No. 142, dated 16th March 1905, from the Executive Engineer, Hassan Division, *in re* a provision from the District Funds for clearing the Kalyani at Channarayapatna. Read also the General Assistant Commissioner's yadi No. 1802, dated 5th March 1905, on the subject.

Resolution.—Resolved that as Messrs. Tirunaraniengar and Nanjanna, District Board members of Channarayapatna Taluk, now state that they are personally aware that there is a subterranian stone and concrete water-course leading into the Kalyani, the Amildar be requested to have the same traced for the purpose of being repaired at a less cost than constructing a new one.

V. Read yadi No. 296—5, dated 8th March 1905, from the President of the District Board, Tumkur District, requesting to be informed whether the Hassan District Board is prepared to provide funds for a road from Honnavalli (in the Tiptur Taluk) to Halkur (in the Arsikere Taluk).

Resolution.—Resolved that the Board recognise the necessity for this cart-track and agree to undertake the portion of it which is within the Arsikere Taluk in due course. But as the Budget for 1905-06 has already been submitted to Government leaving only a working balance, this work will be provided for in the Budget of 1906-07.

VI. Read Memo No. 138 from the Executive Engineer, Hassan Division, regarding the construction of a culvert across the feeder channel to Chatchathalli Dyavappanahallikere in the Belur Taluk.

Resolution.—Resolved that the cost of Rs 500 for this work appears very heavy and that as the Dyavappanahalli raiyats are reported to have deposited a contribution of Rs. 100 towards the work, the Senior Assistant Commissioner be requested to inspect the same at an early date with a view to ascertaining whether a path could not be made by diversion over adjoining land which might be acquired at comparatively small cost.

VII. Read yadi No. 1590, dated 13th February 1905, from the General Assistant Commissioner, submitting a revised estimate for constructing a well at Metikere in the Channarayapatna Taluk.

Resolution.—Resolved that the revised estimate of Rs. 316 be sanctioned, thus providing an additional cost of Rs. 98.

VIII. Read Government Proceedings No. 7101-3—L. B. 344-96, dated 16th February 1905, regarding the opening of Vaidyasalas at Harnahalli and Grama.

Read yadi No. 7, dated 24th March 1905, from the Pandit in charge of the Indigenous Hospital at Mysore, stating that Lakshmipati Pandit may be appointed as a physician of one of the Vaidyasalas and that Pandits Rajappa and Shamanna are already employed, the former at Tarikere and the latter in the Indigenous Hospital at Mysore.

Read also a petition from Syed Ahamad, a Unani Hakim of Hassan, requesting to be appointed to one of the above two places as a Hakim.

Read also a petition from the people of Ambuga, etc., villages of the Grama hobli, Hassan Taluk, praying that one Pandit Lakshminarasimhachar who has been treating patients may be appointed as Pandit to the Vaidyasala at Grama.

Read also a petition from Pandit Lakshminarasimhachar praying for the said appointment.

Resolution.—Resolved that Lakshmipati Pandit be appointed for Grama in Hassan Taluk and Hakim Syed Ahamad for Harnahalli in Arsikere Taluk.

IX. Read Government Proceedings No. 7204—L. B. (267-04)-2, dated 17—18th February 1905, appointing Mr. Sahukar Gowda Dharanaiya Chetty of Sravanabelagola as a member of the District Board in place of his father Mr. Gowda Padma Chetty, resigned.

Resolution.—Recorded.

X. Read yadi No. 894—2194, dated 22nd March 1905, from the Senior Assistant Commissioner, Saklespur, submitting a revised estimate for sinking a well at Hanbal.

Resolution.—Resolved that under the circumstances represented, the revised estimate for Rs. 796 be submitted to Government for sanction, with a recommendation that the extra cost of Rs. 390 be met from next year's provision for incomplete works, as it is important that the work be not deferred now, as owing to heavy rainfall in the locality in the south-west monsoon, the sides of the well would fall in if the stone work be not done at once.

XI. Read letter No. 146, dated 19th March 1905, from the Executive Engineer, Hassan Division, regarding railing the sides of the road which runs over Janivara tank bund, Channarayapatna Taluk.

Resolution.—Resolved that considering the necessity of other works in Channarayapatna Taluk, and the paucity of District Funds, this expensive work may be considered when District Funds improve. The Board suggest that this work might be added to the list of village Famine Relief Works.

XII. Read docket No. 170, dated 25th March 1905, from the Executive Engineer, Hassan Division, enquiring whether the District Board is prepared to meet the quota of contribution towards the cost of flooring with Mangalore tiles the floors of certain Local Fund Dispensaries in the District.

Resolution.—Resolved that it will not be possible to provide a quota of one-third from the District Funds for flooring all the Dispensaries in the District with Mangalore tiles or Cuddapah slabs in one year, but the Board agree to provide for the cost of such work to two Dispensaries each year.

XIII. Read a list of furniture required for the use of the District Board President's office.

Resolution.—Resolved that the cost, *viz.*, Rs. 38½ (thirty-eight and a half) be sanctioned for purchasing the necessary articles of furniture (as per list read out) for the President's office.

XIV. (1) Read letter, dated 1st April 1905, from Mr. Gurulingegowda, District Board member, expressing his inability to attend the meeting on account of urgent private affairs.

(2) Read letter, dated 2nd April 1905, from Mr. Koneri Ramasetty stating that on account of his ill health he is unable to attend the meeting.

(3) Also read letters from Mr. Syed Amir Hassan, Senior Assistant Commissioner, Mr. B. Ramaswamaiya, Assistant Commissioner, and Mr. M. K. Tirumalachar Deputy Inspector of Schools, intimating their inability to attend the meeting owing to unavoidable circumstances.

Resolution.—Recorded.

PART I.

Rules for the grant of passes and for guidance of Shooting Parties.

1. No warrant officer, non-commissioned officer or private soldier shall carry fire-arms for sporting purposes without a shooting pass. Shooting passes will only be granted to warrant officers and non-commissioned officers and to efficient private soldiers possessing at least one good-conduct badge. No private soldier, not qualified to be a member of a shooting party, shall be allowed to possess a rifle, carbine or gun of his own.

2. Warrant officers and sergeants may be granted passes to shoot alone provided that the officer granting the pass is satisfied that the warrant officer or sergeant has sufficient knowledge of the language to enable him to converse with the inhabitants, or if accompanied by a qualified native interpreter. With the above exceptions passes will only be granted to a party of not less than three and not more than six, one of whom shall be in charge of the party. The party must in all cases be accompanied by a native qualified to act as interpreter, whose name will be entered on the pass. One member may be left in charge of the camp, but the remainder of the party shall not separate while shooting.

3. All shooting passes will be granted on India Army Form L., 1181 (Appendix A). They will be granted by the officer commanding the corps or detachment to which the men belong or to which they are attached, who will keep a record of all passes granted. The names of the party and of the interpreter and the numbers and specification of the fire-arms carried will be entered on the pass and the certificate on the face of the pass will be signed by the squadron, battery-section or company officer, and countersigned by the commanding officer. Before the party starts the armourer sergeant, and in the case of a battery the section officer, will inspect all the fire-arms entered on the pass and will sign the certificate on the pass. No fire-arms not specified on the pass shall be carried or used, and no rifle or carbine shall be used, which carries Government ammunition, or is sighted over 300 yards. All bullets used with rifles or carbines for sporting purposes shall be hollow.

4. No person not named in the pass, except a shikari and game-coolies, shall accompany a shooting party.

5. Shooting passes as a rule shall not extend to more than 14 days, but special passes for periods not exceeding one month may be granted to men known to be experienced sportsmen, with the sanction of the General Officer Commanding the Division or Brigade. Men requiring passes to shoot at a distance, or for periods of more than three days must apply for the pass at least six days before the date on which they wish to start, so as to enable notice to be given to the district civil authorities as required by Rule 19.

6. The member of the party who is placed in charge shall carry the pass. He shall produce it when reasonably required to do so, and he shall at once return it to the squadron, battery or company orderly sergeant when the party comes back to camp or lines. On returning the pass he shall report any breach of these rules, any affray with natives, or any mishap, which may have occurred during the absence of the party. If any such event is reported, the non-commissioned officer to whom the pass is returned will at once inform the commanding officer; and the commanding officer will at once send to the District Magistrate the substance of the report, together with a copy of the complaint, if any.

7. There shall be no loading in the neighbourhood of camp or lines; and all fire-arms shall be unloaded as soon as the party leaves off shooting.

8. If any member of a shooting party commits any act resulting in injury to person or property, or is involved in an affray with natives, the party shall return to camp or lines without delay after reporting, if possible, to the nearest civil authority.

9. No shooting with bullets of any kind is permitted except in forest or close jungle, or in tracts of country where such shooting is not attended with danger. Shooting at night is forbidden, except in forests. Shooting in Government reserved forests is prohibited without a special permit from the forest officer.

10. No member of a shooting party shall address or enter into conversation with any native woman.

11. No member of a shooting party shall enter any village, house, temple, mosque or enclosure, or shall shoot within 500 yards of such. If supplies are to be obtained from a village, the interpreter may be employed for the purpose.

12. Members of shooting parties are forbidden to trespass upon or shoot over crops.

13. No member of a shooting party shall shoot at any animal or bird, or in any locality, included in the prohibited list shown on the pass.

14. Shooting at peafowl is prohibited, unless by special permission endorsed on the pass. No shooting at hinds, does, monkeys or dogs is permitted.

15. Fire-arms and ammunition used for sporting purposes, whether private property or issued by Government, shall be kept in the squadron, battery or company store-room in charge of the squadron sergeant-majors, quartermaster-sergeants or colour-sergeants. They will be issued by the above named non-commissioned officers, on production of a pass in which they are specified, and this duty shall not be delegated to any other person.

16. All fire-arms issued from the store-room and unused ammunition shall be returned to the sergeant in charge, who will sign for their receipt on the shooting pass, when the party comes back to camp or lines. All arms kept for sporting purposes shall be entered on the "daily state" of the corps or detachment; and shall be shown as "present," "on pass" or "absent."

17. These rules apply to troops on the march or in moving camps, as well as to troops in cantonments or standing camps.

18. Officers commanding stations, and officers commanding troops about to march will communicate with the civil district officer in order to ascertain—

(*a*) In what localities shooting ought to be forbidden.

(*b*) What animals or birds are regarded by the inhabitants, as sacred, or are protected by rules relating to the establishment of a close season.

19. Prior to the issue of a shooting pass which is to extend over three days, the commanding officer by whom it is to be granted shall send notice thereof to the district officer of any civil district in which the members of the party are to be permitted to shoot. This notice shall be despatched at least three days before the commencement of the currency of the shooting pass. The notice shall state the names and rank of the members of the party, the place or places which they are to visit and the dates indicating the duration of the pass.

20. For a Native state, the political officer in charge shall be deemed to be the district officer for the purposes of Rules 18 and 19. The notice furnished to the political officer under the latter rule shall be despatched at least three days beforehand; but such longer notice shall be given as is possible. Soldiers marching through a Native state are in no case to be permitted to shoot unless within ten miles of camp.

21. When men are permitted to shoot in the vicinity of a military station at a distance from their quarters, the following procedure shall be observed :—

(1) A furlough pass will be granted to them to the military station nearest to the country in which they intend to shoot. On the furlough pass will be an endorsement by the officer commanding the corps or detachment in red ink to the effect that the men are permitted to carry fire-arms and ammunition, and are eligible for a shooting pass. The furlough pass so endorsed shall be an authority to the sergeant in charge to issue arms and ammunition, to the party, after the armourer sergeant has signed the specification that the arms are in good condition and not contrary to Rule 3.

(2) A shooting pass will at the same time be given to them in the usual form with the omission of (*a*) the name of the interpreter, (*b*) the dates indicating the duration of the pass, (*c*) the list of prohibited localities, animals and birds and (*d*) the countersignature of the commanding officer.

(3) On arrival at the military station to which they are granted furlough, they shall report themselves to the military authorities at that station who will attach them to a military unit.

(4) The officer commanding the corps or detachment to which they are attached will, unless there are valid reasons to the contrary, complete the shooting pass by entering (*a*) the name of a qualified interpreter, (*b*) the dates indicating the duration of the pass and (*c*) the list of prohibited localities, animals and birds for the tracts of country where the members of the party intend to shoot; and will then add (*d*) his countersignature. He will also give the notice to the civil authorities required by Rule 19.

The possession of fire-arms and ammunition by members of the party is only allowed during the currency of the completed shooting pass; otherwise Rules 15 and 16 apply at the station to which the men are granted furlough.

PART II.

Rules for dealing with offences.

22. When any serious breach of these rules occurs, the officer commanding the corps or detachment will at once report the date and all the facts of the incident, so far as known, and also full details of the action taken, by telegram direct to the Adjutant General in India, repeating the message to the General Officer commanding the division and brigade; to the Deputy Adjutant General of the command and to the military Department of the Government of India. Detailed reports will be submitted subsequently by letter direct to the Adjutant General in India for the information of the Commander-in-chief and the Government of India. Copies of these reports will be furnished by the officers with whom they originate, through the usual channels, to command head-quarters for information.

23. In every such case the officer commanding the corps or detachment will immediately commence a thorough and searching investigation in view to securing the best possible narrative while the event is still fresh; and he will communicate with the district magistrate as freely as required. When the civil authorities also take up the case every assistance possible will be rendered to them in their investigation. The medical officer, who first attends to any person (whether soldier or

civilian) wounded in any such case, will, without delay, bring to the notice of both the civil and military authorities the nature and extent of the injuries received and their probable ultimate result.

24. Any warrant officer, non-commissioned officer or private soldier shooting without a pass shall be tried by court-martial, and shall on conviction be deprived of the privilege of shooting during the remainder of his Indian service. Also, any member of a shooting party who commits any breach of these rules resulting in material injury to person or property, shall be tried by court-martial. Cases of all other breaches of the rules shall be reported to the general officer commanding the division or brigade for orders.

25. When a court-martial is to be held under Rule 24 the case shall be sent to the Deputy Judge Advocate-General who shall frame the charges and prepare the brief for the prosecution, and the proceedings of the court-martial shall be sent to the same officer for report before confirmation. If a civil enquiry has been held on any case the proceedings of enquiry should accompany application for trial in view of all possible evidence being made available.

26. When a court-martial is held under these rules, the result will be reported for the information of the Commander-in-Chief and the Government of India.

27. If any breach of these rules, or any act committed by a member of a shooting party, results in an affray with natives, or in material injury to person or property, and the offender or offenders cannot be identified, all shooting passes may be prohibited in the corps or detachment, or in the district, for a period not exceeding two years at the discretion of the Lieutenant-General commanding. Every such prohibition shall be published in command orders and reported for the information of the Commander-in-Chief and the Government of India.

PART III.

Special rules for warrant and non-commissioned officers of departments.

28. Shooting passes will be granted to warrant and non-commissioned officers of departments by the local departmental senior commissioned officer, in accordance with these rules so far as they may be applicable. Standing passes for a maximum period of six months, but subject to the rules relating to prohibited localities, animals and birds and to the other restrictions referred to above, may be granted to subordinates of the Military Works Department who are not employed in Cantonment. In every case the officer granting the pass is responsible for seeing that the list of prohibited localities, animals and birds is duly entered on the pass.

PART IV.

Publication of these Rules.

29. A copy of these rules and of the list of prohibited localities, animals and birds shall be hung up in a conspicuous place in every barrack-room.

30. Twice a year (in April and October on such day as the officer commanding directs) Rules 1 to 17 and Rules 24 and 27 shall be read on parade at the head of all British squadrons, batteries and companies (including convalescent depots and standing camps).

31. When troops disembark in India no shooting passes shall be granted until they arrive at their destination. On their arrival, and before any passes are granted, Rules 1 to 17 and Rules 24 and 27 shall be read on parade. An order calling attention to this rule shall be issued to the commanding officer of each corps or detachment before the troops disembark.

32. A copy of Rules 15 and 16 shall be hung up in every squadron, battery or company store-room.

33. Rules 1 to 17, 24 and 27 will be printed on the back of the shooting pass, India Army Form L., 1181 (Appendix A).

34. A copy of these rules will be issued with every shooting pass and will be carried by the member in charge of the party, who will give it back to the orderly sergeant with the pass on return to barracks or camp.

NOTE.

The following orders and rules of law apply to the civil inhabitants of localities in which soldiers are permitted to shoot.

The civil authorities will explain the substance of the rules and orders in simple language in all villages and tracts where soldiers are in the habit of shooting, warning them that soldiers are on no account to be attacked and that any such attacks will be severely punished, so that the inhabitants will have no excuse for interfering unwarrantably with members of a shooting party.

2. Landlords, headmen and village police will also be warned that they are expected to give their assistance in avoiding disputes between villagers and soldiers out shooting.

3. The rules for soldiers provide for punishment of a corps or detachment, or district, in the event of the offenders not being discovered. A similar responsibility may be enforced upon villages where affrays with British soldiers have occurred, if the villagers generally, or a considerable number of them, have made an unwarranted attack upon a shooting party, but the actual offenders have not been brought to justice. The villagers will be warned that in such cases they are liable by law to have extra police quartered upon them at their own expense.

4. The villagers will also be warned that they are not in any circumstances to take the law into their own hands, but are to lodge any complaint they have to make in a legal manner.

5. In cases which are not cognizable by the police, or where the prosecution is not undertaken by the civil authorities, the civil district officer will inform the commanding officer to that effect, for such action as the latter may consider fit to take.

APPENDIX B.

CONDUCT OF SOLDIERS TOWARDS NATIVES.

Notes for the information and guidance of soldiers out shooting by H. H. Risley, Esq., C.S.I., C.I.E., Secretary to the Government of India, Home Department, and Director of Ethnography for India.

The following instructions are prescribed for observation by non-commissioned officers and privates in their dealings with natives when out shooting under the pass rules. The facts and beliefs upon which the instructions are based are given in the illustrations.

The Compiler believes that most of the misunderstandings that arise between British soldiers and natives of India are due to ignorance on both sides. The soldier does not know what is likely to give offence; the native assumes that some act which

hurts his feelings has been done on purpose to annoy him. The following notes attempt to reduce the occasions for disagreement by explaining some of the customs, beliefs and superstitions which form a large part of the daily life of the Indian villager. When the holders of shooting passes realize that many usages which may strike them at first sight as absurd are looked upon by natives of India as extremely scared, and that interference with them may cause a man to be put out of caste or to be fined heavily for no fault of his own, the Compiler is confident that they will make it a point of honor to treat them with proper respect.

(1) Temples and Mosques should not be approached. Soldiers should also avoid the neighbourhood of—

(*a*) shrines, which may assume various forms ranging from a masonry building to a shapeless lump of clay, and may usually be recognised by the presence of flags or streamers, smears of vermilion, images or pictures of snakes, and holes or niches for lamps;

(*b*) cemeteries or isolated tombs or graves;

(*c*) burning ghats;

(*d*) trees, rocks, or other objects which are marked with vermilion, or on or near which flags have been erected, cotton rags tied or offerings placed;

(*e*) any strange looking object which may be connected with religious or superstitious observances.

(2) Soldiers should be careful not to eat in the neighbourhood of temples, shrines or houses and in no circumstances should they offer food to natives, either adults or children. In this connection they should bear in mind that beef is an abomination to Hindus and pork to Muhammadans. Tobacco is equally repugnant to Sikhs and it is not right to smoke near a Sikh place of worship or, if it can be avoided in the company of Sikhs.

(3) Natives should not be approached or looked at when they are engaged in cooking or in eating their food.

(4) Wells should be avoided as much as possible and in no circumstances should the buckets attached to the well be used for drawing water. If water is required from a village well the guide should be sent to get it.

(5) Soldiers should not attempt to borrow earthen or metal drinking vessels for their own use, since the earthen vessels would have to be destroyed and the metal ones would require ceremonial purification.

(6) Soldiers should be careful not to shoot on sacred tanks; such tanks can usually be recognised—

(*a*) by their having a small temple or shrine on the bank;

(*b*) by a pole planted in the middle of the tank with an iron trident or wheel on the top of it.

Nor should they fire at birds when sitting on sacred trees, such as the pipal or banian.

(7) Bathing ghats should be avoided, as they are frequented by women, both for bathing and for drawing water.

(8) Soldiers should avoid as far as possible taking any notice of either women or children. In the case of the former their motives are apt to be regarded with suspicion, while any attention shown to the latter is thought to cast upon them the evil-eye.

(9) A hookah belonging to a native should never be touched, as it would be polluted and would have to be destroyed.

(10) Soldiers should avoid having anything to do with devotees, religious mendicants and fakirs.

(11) Soldiers should bear in mind that dogs are regarded by both Hindus and Muhammadans as unclean animals and should not allow their dogs to go near natives or their houses. They should also remember that pariah dogs, though apparently ownerless, are useful in guarding villages at night, and that natives object strongly to their being shot without sufficient cause.

(12) Threshing floors are sacred, especially when threshing or winnowing is going on, and should not be approached.

ILLUSTRATIONS.

1. *Introductory.*—For the purpose of these illustrations there may be said to be representatives of five non-Christian religions in India :—

(*a*) Hindus, who worship many gods.

(*b*) Muhammadans, who worship only one god.

(*c*) & (*d*) Jains and Buddhists, who recognise no god at all, but revere a number of men who are supposed to have attained a special spiritual condition.

(*e*) Animists, who worship an indefinite number of spirits or powers, mostly evil.

Hindus build temples with pointed tops; Muhammadans have mosques with domes and a varying number of minarets. Jain and Buddhist temples may be known by their fluted domes usually surmounted by flags or brass emblems.

Animists have no temples but respect and fear a large number of natural objects, such as rocks, trees, rivers, waterfalls, etc., especially those which have something unusual in their appearance.

Members of all the religions recognise a number of subordinate deities, saints, spirits, and the like, to whom are erected shrines which soldiers should on no account meddle with. Instances of these irregular forms of worship are given in the next paragraph.

2 *Shrines and Symbols.*—These are connected with the miscellaneous religious observances described below :—

(*a*) *Worship of the Sun and Moon.*—In many places rude representations of the sun and moon are carved on wooden pillers which are worshipped near a village. The Swastika or crooked cross, representing the sun is painted on the walls beside the door post to keep off the evil-eye, and appears in the form of two cross strokes with a daub of plaster on the shrine of the village god.

(*b*) *Worship of the Earth.*—In some districts a drum smeared with red lead forms part of the worship of the earth. In others a small hut of clods about a foot high, covered with fresh grass, and supported by two posts is erected at the edge of a field intended for the spring harvest as the temple of Machandri or mother earth.

(*c*) *Worship of Rivers and Springs.*—Khwaja Khizr, the god of water and the patron deity of boatmen, is worshipped all over India by setting afloat on a river or tank a little raft of grass with a lighted lamp placed upon it. Hot springs are everywhere sacred and should not be meddled with or approached.

(*d*) *Worship of Village Gods.*—

(i) In many villages Mahamai or the great mother has a shrine consisting of a low flat mound of earth with seven knobs of colored clay at the head or west side. Sometimes a flag is erected in front to the east.

(ii) The monkey god, Hanuman, is supposed to have power to scare evil spirits from his votaries and a rude image of him smeared with oil and red ochre is frequently met with in Hindu villages. He is the patron of wrestlers and at every wrestling place a platform smeared with cow-dung or earth is erected in his honor.

(iii) Bhimsen is also a village guardian and is represented—
(a) by a piece of iron fixed in a stone or in a tree;
(b) by a stone daubed with vermilion;
(c) by two posts of wood standing three or four feet high;
(d) by stone pillars called Bhimlath or Bhim's clubs.

(iv) The shrine of the god of the village is generally a small square building of brick masonry with a bulb-shaped top, sometimes surmounted by an iron spike. A red flag hung on a neighbouring tree marks its position and there are usually a few carved stones lying about which the villagers rub with vermilion and oil as an act of worship. Another form of the shrine is a pile of stones under an ancient sacred tree. Near these shrines are found little clay images of elephants and horses and clay bowls with short legs, while on the neighbouring trees are hung miniature cots to commemorate the recovery of a patient from small-pox or other infectious disease. Sometimes the shrine of the village god is a rude building of mud or bamboo and straw, roofed with a grass thatch; inside is a small platform, known as the seat of the god, on which water is placed in the earthen bowls already described, and cakes, milk and flowers are offered. Elsewhere the abode of the village god is marked by cross stakes of wood driven into the ground on the edge of the cultivated lands. In Southern India the village god Ayenar is represented by a rudely carved human figure, painted a reddish colour, sitting or riding with his two wives under a rough stone canopy. In Bengal the Sonthals erect a piece of split bamboo about 3 feet high as the *Sipahi* or sentinel of the village while the Gonds use two carved posts for the same purpose.

(e) *Worship of gods of disease.*—The goddess of cholera is worshipped in the form of a block of stone roughly hewn into the semblance of the human figure or is represented by a fragment of rough stone daubed with red ochre and placed beneath the boughs of an ancient banian tree. In one province a similar goddess known as Banspati Mai or the mistress of the jungle, has a shrine in the form of a pile of stones and branches to which every passer by contributes. In another, Ghentu, the god of itch, is represented by a broken earthenware cooking pot daubed with lime and turmeric with a branch or two of the Ghentu plant and a cocoanut broomstick. Mutua Deo, the god of fevers, is represented by a heap of stones inside the village to which a pig is sacrificed when fever prevails. Hardaul Lala, the god of cholera, has a shrine outside the village with a stone figure of the god on horseback, decorated with flags. The demon of cattle disease is warded off by wisps of straw tied round the trunk of acacia trees.

(f) *Worship of ancestors.*—All through the central portion of India slabs of stone are set up in the neighbourhood of villages as a resting place for dead ancestors, at which daily offerings of food are made.

(g) *Worship of Suttees.*—All over Upper India small shrines in honor of suttees, or women who burnt themselves on the funeral pyre of their husbands, are found on the banks of tanks. These shrines often take the form of a monument on which is carved the warrior on his charger with his wife standing behind him and the sun and moon on either side. Sometimes a snake is carved as if it were coming out of the tomb.

(h) *Worship of pirs or saints.*—Both Mussalmans and Hindus worship indiscriminately a number of militant saints. There are popularly supposed to be five *pirs*, and low caste Hindus worship them in the form of five wooden pegs set up in the court yard of the house. The members of a well-known criminal tribe build an altar in the shape of a tomb and offer to the *pirs* a fowl and some thin cakes which are given to a Muhammadan beggar who goes about beating a drum. In another form of

this worship an iron bar, robed in red cloth and adorned with flowers, represents Ghazi Miyan and is taken from door to door, drums being beaten and grain collected from the villagers. In many villages of the Punjab, *Sakhi Sarwar* has a plastered brick shrine with a high dome and low minarets or pillars and a masonry platform in front. *Guga Pir*, the governor of the snakes, is represented on horseback with a long staff in his hand round which a snake is coiled. *Teja Ji*, another god of the same character, is depicted as a man on horseback whose tongue is being bitten by a snake. *Nagardeo*, a saint who protects cattle, is represented in villages by a three-pronged pike or trident set up on a platform, and when cows are milked for the first time the milk is offered to him. *Kalu Kahar*, the son of a Kahar girl who by magical charms compelled King Solomon to marry her, is extensively worshipped in the Maratha country as a protector of cattle. His symbol is a stick covered with peacock's feathers to which offerings of food are made.

(*i*) *Worship of the malevolent dead.*—In many villages small platforms are built with rows of saucer-like holes into which milk and Ganges water are poured while lamps are lit and Brahmans watch to conciliate the Gayal or sonless ghost, the spirit of a man who died without a son to perform his funeral rites. In the hills the wild huntsman Airi, the ghost of a man who was killed while hunting, has his temples in deserted places, a trident representing the god and a number of surrounding stones his followers. In jungle districts the Baghaut or ghost of a man who is killed by a tiger has a shrine consisting of a heap of stones or branches near a pathway in the jungle. Every passer-by adds to the pile and the Baiga or jungle priest offers upon it a pig or a cock or some spirits, and lights a little lamp there occasionally.

Spirits, it is believed, cannot sit on the ground and for this reason near certain shrines two pegs or bricks are set up for the spirit to sit on, or a bamboo is hung for the spirit to perch on when he visits the place. For the same reason the Oraons hang up an urn containing the bones of a dead man on a post in front of the house in order that his spirit, finding a comfortable resting place in the urn, may not enter the house and annoy the living.

(*j*) *Worship of trees.*—Many trees are regarded as sacred in India, for reasons which need not be entered upon here. On account of this sanctity many Indian tribes bury their dead in trees. The Khasias and Nagas of Assam lay the body in the hollow trunk of a tree or hang it in a coffin to the branches. The Mariya Gonds of the Central Provinces tie the corpse to a tree and burn it. Among the Maler of the Sonthal Parganas priests, whose ghosts are apt to be troublesome, are laid under trees and covered with leaves. In the south of India when a man is worried by a spirit, he calls in a sorcerer who imprisons the spirit in a tree, at the foot of which is placed a stone, the size of a cocoanut, surrounded with other small stones, while the tree and the large stone are smeared with red lead, red powder, and frankincense.

Among the sacred trees the most important are the following :—

The Pipal (*Ficus religiosa*) which is worshipped by high caste Hindu women every month by watering its roots, smearing the trunk with red lead and ground sandal wood, and putting at the foot copper coins or sweetmeats which are the perquisite of beggars. Sometimes a string of cotton is twisted round the trunk and vessels of water are hung from the branches for the souls of the dead to drink from.

The Banian (*Ficus indica*) is also sacred and is worshipped in much the same way as the pipal.

In the Punjab the leaves of the Siras (*Acacia sirisa*) are hung up on a rope crossing the village cattle path to ward off epidemics, together with a on which

title magic words are written and rude models of wooden sandals, a rake, ploughshare and other agricultural implements, which are believed to scare the demon who brings the plague.

The Tulsi or Basil *(Ocymum sanctum)* is sacred to Vishnu, and is usually planted on small masonry pillars near houses.

(k) Worship of animals.—A number of animals are regarded as sacred by natives and soldiers should be careful not to shoot at or molest any of these mentioned below or in the local lists except snakes and tigers.

Snakes.—Snakes are generally sacred because of their mysterious power, because they are believed to protect houses and treasure, and because they are supposed to live long time and to be very wise. In the Punjab hills every householder has an image of a snake in charge of his homestead, and in Southern India similar images are very largely worshipped in the outskirts of villages.

Cows.—Although the worship of the cow by the Hindus is comparatively modern their prejudices on the subject are extremely strong. To kill, injure or insult a cow is regarded as the most serious of all crimes and the slaughter of kine is expressly prohibited in many Hindu states. Bulls are also sacred, especially those which have been dedicated to Siva and branded on the right hind quarter with the mark of his trident.

Monkeys are sacred as the embodiment of the god Hanuman.

Rats.—In Western India the rat is sacred as the animal on which the god Ganesha rides, and it is considered a great sin to kill a rat.

Squirrels.—The squirrel is sacred because it helped the god Rama to build a bridge between India and Ceylon when he went to recover his wife Sita from the demon Ravana. In gratitude for this service Rama stroked the squirrel, leaving the marks of three fingers on his back, and ordained that no man should kill him.

Tigers.—In Mirzapur and in the Central Provinces the Gond tiger-deity Gansam Deo has a shrine in the form of a platform of mud outside the village on which water pots and clay figures of horses and elephants are offered to him. Sometimes the shrine consists of a few blocks of rough stone smeared with vermilion surmounted by a garland and a bamboo with a red or yellow flag tied to the end.

Horses.—At the time of the Dasara festival, horses of stone and clay are worshipped by certain tribes, and horses made of rags are offered at the tombs of saints.

Dogs.—Although dogs are regarded by Hindus as unclean, the dog is associated with the worship of Bhairon or Bhairava, the guardian of Siva temples, and in Western India no Mahratta will injure a dog. In Poona the god Dattatreya is guarded by four dogs, which are said to represent the four Vedas, and at Jejuri and Nagpur children are dedicated to the dogs of Khande Rao, who is regarded as an incarnation of Siva, and is most frequently represented as riding on horseback attended by a dog.

Cats.—The cat is sacred to Shashthi or Chathi, the goddess of lockjaw which attacks children on the sixth (*chathi*) day after birth. Shashti is believed to ride upon a cat, and any Hindu who kills a cat, even by accident, ought to do penance for the sin by walking barefoot all the way to Benares on burning charcoal.

Doves and pigeons are held in much respect by Mahomedans, some of whom will on no account kill pigeons. Hindu traders (*banias*) also feed them in front of their houses or shops, and greatly resent their being killed.

Peacocks are sacred birds and are specially venerated by the Jats, who object strongly to seeing a peacock killed near their villages. Peacock feathers are believed to ward off disease if waved over the sick, and to smoke a peacock feather in a pipe is a charm against snake-bite.

Parrots.—In some parts of India natives object strongly to parrots being shot. The reason usually assigned is that the parrot has a hand like a man (the hind claws are prehensive) and can talk like a man; therefore it is wrong to kill him.

(*l*) *Worship of fetishes.*—The worship of fetish stones prevails all over India, stones of phallic shape, and stones which have holes or perforations, among them the Salagram or Ammonite being regarded with special reverence.

A common religious emblem of this class is a small stone or masonry pillar standing in a sort of saucer with a lip to it. Sometimes the latter is absent and the pillar is represented by a rough water-worn stone, more or less oval in shape, smeared with vermilion. The god Siva is worshipped under this form. The symbol is extremely sacred and soldiers should be careful not to meddle with it.

The Sonthals worship a number of fetishes which are set up in their houses in order to keep off evil spirits, snakes and tigers. They consist of pieces of wood or stones painted red, arrowheads and tridents. In several parts of India rude wooden images, about three feet high with a rough representation of the human face on the top, are set up on platforms to protect the cattle from beasts of prey.

All castes of Hindus worship the tools, implements or weapons by which they earn their living. Among these fetishes the grain sieve, the plough, the basket, the broom, and the rice-pounder are of special sanctity and are believed to possess magical powers.

(*m*) *Rag offerings.*—There are many examples in India of the curious custom of hanging rags on trees and bushes or near sacred wells in order to ward off disease. In Garhwal a heap of stones is erected at the top of a pass with sticks and rags attached to them, to which travellers add a stone or two as they pass. Among the Kharwars of Mirzapur, the Baiga or village sorcerer hangs rags on the trees over the village shrine as a charm to bring health and good luck. In Berar a heap of stones daubed with red and placed under a tree fluttering with rags represents Chindia Deo, or the god of tatters, and it is believed that if a man presents a rag in due season, he may chance to get new clothes. Elsewhere when a man is ill, rags from his person are tied to a tree, especially a banian, cocoanut or some thorny tree. Another plan is to take the disease from the sick man and fix it in a tree by thrusting a nail into it or to catch the spirit of the disease in a bottle and tie the bottle to a tree. So in Mirzapur when fever prevails, the Pataris tie a cotton string, which has never touched water, round the trunk of a pipal tree and hang rags on the branches. The Kharwars have a sacred Mahua tree on which threads are hung at marriages. In Northern India disease may be transferred by filling a pot with flowers and rice and burying it under a stone in a path, or by erecting a little pile of earth decorated with flowers in the middle of the road containing some of the scales of the body of a small-pox patient. The idea is that if anybody touches the stone or the pile of earth, the disease will pass from the patient to them.

3. *Customs connected with the evil-eye.*—Natives dislike to hear their children praised, unless the praise be accompanied with some pious ejaculation. There is, however, no objection to noticing some conspicuous ornament or piece of dress, which children frequently wear as a protection against the evil-eye.

All natives are afraid of being stared at, especially by Europeans, and if they are looked at intently, they turn their eyes away through fear of fascination. It is believed that the nails of Europeans, like those of the Rakshasa or ogre, distil a deadly poison, and that this is the reason why they eat with knives and forks instead of with their fingers. Europeans are also believed to have control over ghosts, and it is commonly supposed that a European called "the momiai-wala sahib" has a monopoly of the right of enticing away fat boys, especially those who are very

blake for the purpose of making from their fat the magical ointment known as *momiai*, or mummy. A similar superstition is that of the "Dinapurwala sahib" who is believed to wander about procuring heads for museums armed with a magic stick with which he entices people on dark nights and chops off their heads with a pari, of shears. Early in 1904 the lower classes of natives in Calcutta were so firmly persuaded that a mysterious personage called the "Sirkatwa or head-cutting Sahib" was collecting heads to consolidate the foundations of the Victoria Memorial building that they refused to leave their houses after dark.

The metals are credited with great virtue in keeping off the evil-eye and malevolent demons. Accordingly while a house is being built, an iron pot or a pot painted black is kept on the works, and when it is finished, the daughter of the householder ties to the lintel of the door a charm which contains a small iron ring

Shells are believed to have the same power, and for this reason women in Bengal wear shell armlets, and strings of cowrie-shells are tied round the neck or pasterns of horses and cows, as an antidote to the evil-eye. Blue beads are also used for the same purpose.

4. *Food, drink, etc.*—All Hindus and most Muhammadans are in constant terror of incurring ceremonial pollution, which has nothing to do with personal cleanliness and may be removed with the help of Mullahs or Brahmans by undergoing varicus penalties which in the case of Hindus may take the form of smearing the forehead with cowdung or swallowing the five products of the cow (*pancha gavya*)—milk, curds, butter, urine, and dung. Pollution is believed to be conveyed most readily by water. Consequently, a Hindu cannot take water from the hands of any one except a man of his own caste or of a caste higher than his own. The numerous Muhammadans who follow Hindu usages are influenced by similar prejudices. In either case the suggestion that a man has incurred pollution may lead to his being turned out of his caste, so that people will not drink with him, or smoke with him, and he may have to pay a substantial fine or give a feast to the caste community in order to be taken back. It follows therefore that a European should never offer water to a native or touch any vessel that might have to be used for drinking. For the same reason the hookah, in which water is used, may also convey pollution, and in some parts of India people are careful to tie some distinctive mark on to their hookahs so that no one may defile himself by mistake. Fire purifies; water pollutes; hence the distinction which holds good for the whole of Upper India between *kachchiroti*, or food cooked with water, and *pakki roti*, or food fried dry with ghee over a fire. The rules relating to the latter are much less strict than in the case of the former, but the safest line of conduct is to take no notice of any native while he is eating or cooking. Most natives particularly dislike being watched at their meals and make a pretence of eating in secret. One sect, indeed, is so particular in this respect, that if a stranger should look at them while they are cooking or eating, the food has at once to be buried in the ground. Some Brahmans in the south of India go further still and believe that earthenware cooking pots are polluted by a stranger even seeing them. They therefore keep their kitchen doors shut so that they may not have to break all their pots and pans. In the same part of the country cotton cloths become unclean if they are touched by a man of a lower caste and especially by a European or a pariah. Saliva is everywhere regarded as most impure and soldiers should be careful not to spit near temples or houses or in circumtances where it is likely to give offence. It should also be remembered that, for reasons which need not be entered on here, the left hand is considered peculiarly unclean.

5. *Wells* are usually dug with special religious observances and are consecrated by a rite symbolising the marriage of the well to the garden which it is intended to water. In some places the village well is worshipped by walking round it and smearing the platform with red lead.

NOTICE.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Department. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

Charges of private advertisements must be forwarded to this office.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

1. It is hereby notified for public information that the undermentioned Jodi village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said Jodidars, will be sold by public auction at the place, and on the date mentioned in the annexed statement. The sale will commence at 11 A. M., on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit twenty-five per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made nor the remaining purchase money paid up, the lands shall be re-sold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case, to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulters or any other person acting on their behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, before the property is knocked down, or give satisfactory proof that the amount of arrears, etc., has been paid up, or furnish security under Section 170 of the Mysore Land Revenue Code.

7. Purchaser having completed the payment of the purchase money will, as soon as the sale has been confirmed, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale, signed and sealed by the Deputy Commissioner, will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

8. Provided, parties deeming themselves aggrieved by the sale, shall be at liberty to appeal to the Government within ninety days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

BANGALORE,
31*st May* 1905.

B. K. VENKATA VARADA IYENGAR,
Secy. to Govt. of H. H. the Maharaja of Mysore,
Gen. & Rev. Dept.

No. G. 5968-70—*G. M.* 23 *of* 1898, *dated Bangalore, 4th May* 1905.

ORDER.—The Government of His Highness the Maharaja are pleased to sanction the following rules for the grant of scholarships to Khadayata students for general and technical education :—

I. These scholarships shall be known as the "Mysore Government Damodar Dass Khadayata scholarships," and shall be for the encouragement of general and technical education among the people of the Khadayata caste, to which the late Damodar Dass belonged. They shall be paid from the proceeds of one-fifth of the Damodar Dass Charities Fund, such one-fifth being treated as a separate subordinate fund for this purpose, and separate accounts being kept therefor.

II. They shall be awarded annually as follows :—

(*a*) Four scholarships, each of the value of Rs. 10 per mensem, and tenable for one year, to Khadayata students who have matriculated, and who continue to study satisfactorily for the previous Examination of the Bomby University at the Guzerat College, Ahmedabad, or any other College that may be approved by the Government of Mysore.

(*b*) Three scholarships, each of the value of Rs. 15 per mensem, and tenable for one year, to Khadayata students who have passed the Previous Examination, and continue to study satisfactorily for the Intermediate Examination for the degree of B. A. or B. Sc. of the Bombay University at the Guzerat College, Ahmedabad, or at any other College that may be approved by the Government of Mysore.

(*c*) Two scholarships, each of the value of Rs. 20 per mensem, and tenable for 2 years, to Khadayata students who have passed the Intermediate Examination, and continue to study satisfactorily for the B. A. or B. Sc. Degree Examination of the Bombay University, at the Guzerat College, Ahmedabad, or at any other College that may be approved by the Government of Mysore.

(*d*) One scholarship of Rs. 15 per mensem, tenable for three years, to a Khadayata student of Engineering or Agriculture, reading for the Degree of L. C. E., or L. Ag., and alternately a scholarship of Rs. 20 per mensem, tenable for 5 years to a Khadayata student of Medicine, at any College approved by the Government of Mysore; provided that failure to pass any University Examination at the first trial, shall entail a forfeiture of scholarship.

NOTE.—1. Every one of the above scholarships will be liable to forfeiture, in case the student concerned is found to be of bad moral conduct or otherwise unfit to hold the same.

2. A female candidate competing for a scholarship, shall always be entitled to preference over any male candidate for the same, irrespective of her rank or order of merit in the examination last passed.

III. To help the Government of His Highness the Maharaja of Mysore in the selection of students for such scholarships, a Committee shall be formed consisting of selected gentlemen of the Khadayata community to be appointed by Government from time to time.

All applications should ordinarily be submitted to the Committee through the Principal of the Institution attended by the applicants, After enquiry into the circumstances of each case, the Committee will submit recommendations for giving the scholarships early in each year to the Inspector General of Education in Mysore, who will submit them with his opinion to Government for final sanction.

IV. When the number of candidates, who, in the opinion of the Khadayata Committee, are equally in need of educational assistance, exceeds the number of scholarships available, the relative merits of the candidates may be adjudged by the results of the University Examinations previously passed.

Failure to pass any University Examination debars the holder of a scholarship for that examination from competing with fresh candidates for the same scholarship.

V. A scholarship forfeited or rendered vacant shall be awarded to some other needy Khadayata candidate studying for the same course. If no such candidate is available it shall be awarded to any other Khadayata candidate studying for any of the courses comprised under this scheme, who, in the opinion of the Committee aforesaid, is eligible for the same and is in need of educational assistance.

VI. In the event of there being any scholarship or other sums not utilized under the above rules, the amount unappropriated shall be distributed, in such manner as may be approved by Government, by general or special orders in this behalf, among objects calculated to promote the general or technical education of the Khadayata community.

VII. The Mysore Government grant, for the scholarships (*a*) to (*d*) referred to in para II, will be paid half-yearly to the Principals of the Colleges attended by the several students, on receipt of satisfactory reports of conduct and progress forwarded by the Principals.

VIII. Notwithstanding anything contained in the above rules, the Committee may nominate to any of the said scholarships, students of the said community prosecuting studies in Colleges affiliated to other Indian Universities than that of Bombay.

IX. The foregoing rules are subject to revision, whenever the Government of His Highness the Maharaja of Mysore deem such revision necessary.

FINANCIAL DEPARTMENT.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1905.

Circular No. *T. A. D.* , *dated* 17*th June* 1905.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1905, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1905.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of 55 years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorised should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the dates from which the transfers have effect. Columns are also provided in Form 4, for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*), as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay bills due 1st November will not be discharged at the Treasuries unless accompanied by a certificate as follows:—

FINANCIAL DEPARTMENT.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1905.

Circular No. 2072 *T. A. D.* 1390, *dated* 17*th June* 1905.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1905, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1905.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of 55 years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorised should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the dates from which the transfers have effect. Columns are also provided in Form 4, for information required in regard to the names of non-gazetted officers which appeared in Form No 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*), as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.
